February 28, 2014

Honorable Mayor and City Council, City Manager and Citizens of Georgetown, Texas:

The comprehensive annual financial report of the City of Georgetown, Texas (the City) for the year ended September 30, 2013, is hereby submitted. The financial statements are presented in conformity with accounting principles generally accepted in the United States of America as set forth by the Governmental Accounting Standards Board (GASB) and have been audited by independent auditors in accordance with generally accepted auditing standards.

<u>Management Responsibility for Financial Information</u>. The City's Finance and Administration Division has prepared the Report and is responsible for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures. To the best of our knowledge and belief, the enclosed data is complete and reliable in all material respects. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

The Reporting Entity. This report includes all the funds of the City, as well as, the City's discretely presented component unit, the Georgetown Economic Development Corporation (GEDCO), its Texas 4A economic development corporation. The City provides a full range of services, which include police and fire protection; construction and maintenance of streets and other infrastructure; recreational activities and cultural events. In addition to general government activities, the City also provides electric, wastewater, water, stormwater drainage and airport services which are included in the reporting entity. The City is also financially accountable for Georgetown Transportation Enhancement Corporation (GTEC), a Texas 4B economic development corporation, which funds transportation projects that enhance economic development within the City. GTEC is presented as a blended component unit within the reporting entity.

Management Discussion and Analysis. Generally accepted accounting principles (GAAP) require management to provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the independent auditors' report located at the front of the financial section of this report.

#### DESCRIPTION OF THE CITY

Georgetown is a Home Rule Charter City and operates under a Council - Manager form of government. A mayor and seven council members are elected on staggered, three-year terms from single member districts. Georgetown is located on Interstate 35, the major corridor between Dallas and San Antonio, at the intersection of State Highway 130. Georgetown was founded in 1848 with a strong agricultural base, in the heart of Williamson County, 26 miles north of Austin. Today, Georgetown has an estimated population of 52,351, with an additional 24,000 within the extra-territorial jurisdiction (ETJ) and serves as the county seat of Williamson County, one of the fastest growing counties not just in Texas, but in the United States.

Georgetown's economic development initiatives to expand jobs and tax base have been with a careful focus of maintaining and expanding its status as a signature destination. The award winning historic downtown square, along with its extensive, award-winning parks and river trail systems along the North and South San Gabriel Rivers and Lake Georgetown have been leveraged to make the City one of the most attractive places to live and work. Georgetown was recently recognized by the national real estate website Movoto.com which named Georgetown the No. 3 best suburban city in the United States. The site specifically mentioned the City's low cost of living and safe community environment.

This unique character and small town charm was a key factor for Del Webb Corporation when it built its first Texas development in Georgetown with the 1995 opening of Sun City, Texas. Today, over 6,673 homes with over 12,600 retirees make Sun City and Georgetown their home.

Georgetown is also home to Southwestern University, which continues to receive national recognition. The University has been named to Kiplinger's list of the 100 best values in liberal arts colleges and has been noted as one of 'America's Best Value Colleges' by the *Princeton Review*. With more than 1,300 students and 450 employees, the University provides substantial economic and cultural contributions to Georgetown.

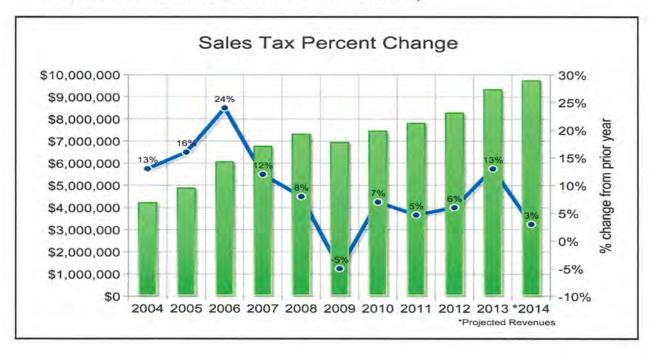

#### GEORGETOWN'S ECONOMIC OUTLOOK AND FINANCIAL CONDITIONS

#### Economic Outlook

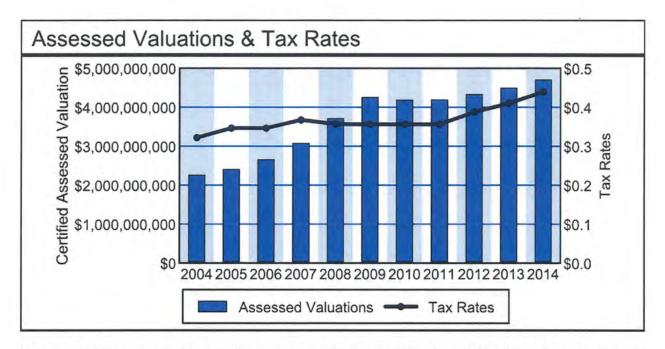

While the Central Texas economy did feel the impact of the recession and credit crisis, it continues to perform better than the national economy with strong growth in building, employment and sales tax receipts. The Central Texas unemployment rate was 4.5% for December 2013, compared to 6.7% nationally. According to the Texas Comptroller of Public Accounts, Texas had fully recovered all of its lost jobs by September 2011 and has continued to see strong growth in new jobs, as well as, retail and business sales. The City's commercial and job base continued to grow with the expansion of several small commercial and retail centers, new healthcare facilities, added retail and restaurants on the downtown square and an agreement that brings a major hotel/conference center to the City.

Residential growth has continued to be healthy with 690 new residential permits in 2013, with a value of \$294.9 million, compared to 664 permits valued at \$171 million in 2012. Housing values have increased, with the average home in Georgetown valued at \$190,802 on January 1, 2013, as compared to \$185,915 on January 1, 2012.

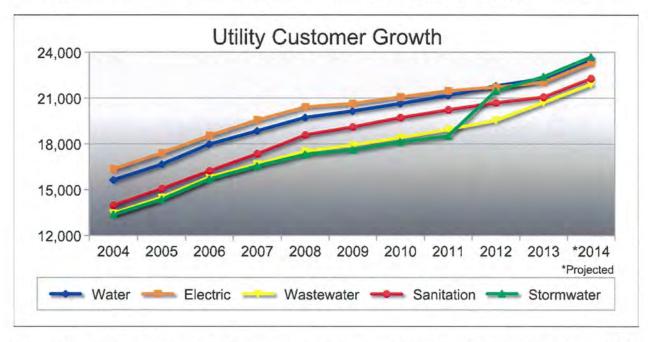

Sales tax revenues increased 13% over the prior year, demonstrating solid growth in the local economy for the fourth consecutive year. The first three months of the 2014 fiscal year continued this trend with sales tax receipts coming in 14% over the prior year. While optimistic that this growth will continue, the City takes a conservative approach to estimating its available resources for each upcoming budget year as national and world wide issues continue to show some uncertainty.

Page 10 Transmittal Letter

New development occurred in the downtown area with the opening of Gumbo's signature restaurant and the completion of Grape Creek Winery, both located directly on the historic downtown square. The downtown area was further enhanced in 2013 with the opening of Thundercloud Subs in the former historic fire station truck bays and the Georgetown Arts and Culture Center in the historic fire station right next door. Another new restaurant, El Monumento, won the Texas Downtown Association's "Best New Construction" award for 2013. New health care facilities, such as assisted living centers, were underway near Sun City. Two new behavioral hospitals, one built by Springstone, and the other operated by Signature Healthcare will add about \$35 million to the City's tax roll. Texas Life Sciences Collaboration Center (TLCC) is nearing completion on their second building with the new space almost fully leased and site plans underway for a third building. The City approved the development agreement for the Sheraton Hotel and Conference Center at the Summit at Rivery Park site. The development includes 220 rooms, 16,000 square feet of conference space, a parking garage and future retail and restaurant development valued at approximately \$150 million at full build out. Groundbreaking is expected by summer of 2014.

Georgetown takes an active role in water and wastewater planning with the Brazos River Authority (BRA) to find regional solutions to the ever increasing demand for services, while protecting the natural

Transmittal Letter Page 11

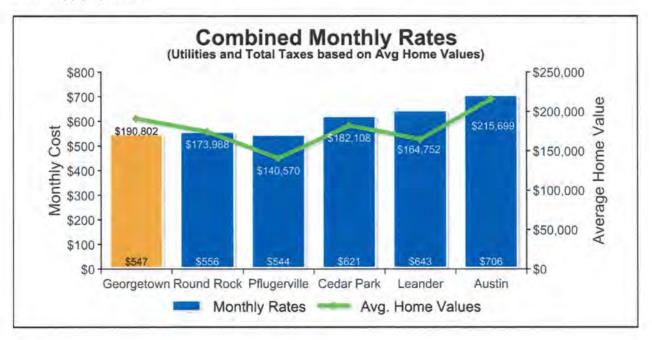

environment within the area. Growth within the utilities continues to have strong positive impacts to the financial and economic conditions of Georgetown.

#### MAJOR INITIATIVES

Energy Services. With the ending of the City of Georgetown's wholesale power agreement with the Lower Colorado River Authority (LCRA) in September 2012, the City extended its active management of its daily energy supply to cover the larger market exposures, congestion issues, and real time settlements that LCRA previously handled. The City currently has power arrangements to cover 100% of its projected needs through May 2015 and 80% of its needs to 2036. The financial impact of these changes has been lower purchased power costs, which are being passed on to customers through lower rates. The City's new long term contracts are mostly renewable energy and therefore provide a hedge against carbon legislation costs. General fund franchise fee revenues are based on the number of kWh sold; therefore, no impact on other City funds is expected from lowering costs to customers. The City has further modernized its rate structure to reflect a cost of service basis with higher fixed monthly charges and lower variable kWh rates. This further stabilizes the City's revenue stream and enhances its ability to use the electric utility to further enhance economic development opportunities. The City already provides power for the Premiere Outlet Mall, Scott and White Hospital and major restaurant and retailers in the north Round Rock area. The August 2013 announcement of a new Bass Pro Shop at the outlet mall site will further expand Georgetown's commercial electric customer base.

<u>Regional Water.</u> The City was approached by the Chisholm Trail Special Utility District (CTSUD) in 2011 about the possibility of merging with the City's water system. The CTSUD provides water service to several areas within the City and the City's ETJ and future growth centers. A detailed feasibility study was completed and the City Council and CTUSD gave final approval to the merger agreement in September 2013. This consolidation with the 7,300 customer district, expected to be completed in late spring 2014, will provide opportunities for the City's future growth and development, and ensures consistent service and water supply to that regional area for years to come.

<u>Utility Rates.</u> The City continues to review rate requirements for all utilities annually, as part of the budget process. Environmental mandates for water and wastewater continue to be the driving factor in rate analysis. Water and wastewater rates were reviewed by the City to ensure rates were funding the costs of providing services. Based on this review, the City adopted a new, more stable water rate structure that better balances fixed and variable components and emphasizes conservation. The initial net revenue impact to the City and its customers will be minor; however, it does give the City a more stable revenue base to implement more aggressive conservation rates as it works to extend its future water supply options.

Page 12 Transmittal Letter

Transportation. Traffic and transportation continues to be one of City Council's top priorities. In November 2008, city voters authorized \$46 million for road projects, with bonds to be issued within the next ten years. To date, \$11,975,000 in road bonds have been issued for planned projects to meet the City's needs. Substantial work has been completed on the right of way purchase and design for the expansion of FM 1460, enhancing Georgetown's transportation corridor to high growth areas in north Round Rock, along with many other major projects in the development stages. The City, through its Transportation Advisory Board, reviews its five year Transportation Improvement Program annually. In addition, the City is developing a plan to assume responsibility of traffic lights within the City. Implementing a regional pavement design system and program to ensure cohesiveness of the City's roadways continues to be a top priority.

<u>Public Safety.</u> Improving public safety response has been a major priority for the last several years. The City completed and opened Fire Station 5 in October 2012 to address response times in the northwestern portion of the City, and completed the reconstruction and expansion of Fire Station 2 serving the central area in February 2013. The voter approved \$29.5 million Public Safety Operations and Training Complex (PSOTC) broke ground in August 2013. This facility will include Police and Fire administration and operations offices, a 24-hour emergency communications center and training areas, including an obstacle course. The complex is expected to be completed in fall 2014.

Park Improvements. The City continues to expand its award winning park system through continued development of the City's trail system along the San Gabriel Rivers to Lake Georgetown. In November 2008 city voters authorized \$35.5 million in bonds to fund park improvements. The City adopted the Parks Master Plan in March 2009 to continue to preserve river corridors and expand parks and green space. The first phase of the San Gabriel River Trail expansion is under construction and is scheduled to be completed in 2014. This trail system has been designated as a National Recreation Trail, one of only 15 such trails in Texas. An additional \$5 million of the voter approved bonds was issued in 2013 to fund the next steps in the Plan. These major steps include the Feb 2013 purchase of 90 acres for a future west side active park and recreation area, the design and business plan on the future 525-acre Garey Park, and improvements in San Gabriel Park.

<u>Long Range Planning.</u> Planning for Georgetown's future is a major priority, as the City formally adopted a new comprehensive plan in 2008 called the Georgetown 2030 Plan. This Plan provides vision for the future and is designed to address growth issues facing the community over the next 20+ years. This project required citizens throughout the community to provide the foundation for policies needed to ensure that the Georgetown of 2030 has the unique quality of life and economic vitality that it does today.

The City's 2030 Plan has been defined by City Council as the goal of becoming the City of Excellence with five focus areas: Economic Development, Public Safety, Signature Destination, Transportation and Utilities. This framework guides the City's business and financial planning process. Staff prepares business plans by focus area and a five-year financial model to direct sound fiscal and policy decisions while capitalizing on the positive momentum in the local and state economy.

<u>Financing Activities.</u> The City took advantage of favorable debt market conditions in the spring of 2013 and issued all of the voter approved debt to fund the PSOTC, \$5 million of voter approved parks bonds, as well as, refunding previously issued debt. By issuing the public safety debt ahead of schedule, the citizens will realize \$5 million in interest savings over current market conditions. The City took advantage of higher than budgeted tax revenues and 2011/12 fund balances to cash fund \$1.2 million in public safety vehicles and equipment that had originally been scheduled for debt financing. The former Albertson's building, purchased in 2008, was sold creating additional financial capacity for future city needs.

#### FINANCIAL INFORMATION

The City is responsible for establishing and maintaining internal controls designed to ensure that the assets of the City are protected from loss, theft or misuse and that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. Internal controls are designed to provide reasonable, but not absolute, assurance that these

Transmittal Letter Page 13

objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

The City's Chief Financial Officer, Finance Director, Controller, and other key staff in the Finance and Administration Division design and maintain the internal control structure. These controls are under continual review by management, and under annual review by the independent auditors. During the year, the Finance Division performs internal audits on selected procedures and operations throughout the City organization. The selection of priorities and timing of audits are determined by the Chief Financial Officer, along with the City Manager.

<u>Single Audit.</u> As a recipient of federal and state financial assistance, the City is responsible for ensuring that adequate internal controls are in place to ensure compliance with applicable laws and regulations related to those programs. Internal controls are subject to periodic evaluation by management. The tests relating to the receipt of such funds are known as Single Audit testing. These tests are made to determine the adequacy of internal controls, including that portion related to federal financial assistance programs, as well as to determine that the City has complied with applicable laws and regulations. The compliance section is included in the final section of this document.

<u>Budgetary Controls.</u> The City maintains budgetary controls to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the City Council. Activities of all funds are included in the annual appropriated budget. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established by division and department within an individual fund. The City also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered amounts are reserved at year-end and carried forward into the following year.

As demonstrated by the statements and schedules included in the financial section of this report, the City continues to meet its responsibility for sound financial management.

#### OTHER INFORMATION

Independent Audit. The City Charter requires an annual audit by independent certified public accountants. The accounting firm of CliftonLarsonAllen, LLP was selected by the City Council. The goal of the independent audit is to provide reasonable assurance that the financial statements of the City for the fiscal year ended September 30, 2013, are free of material misstatement. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion and that the City's financial statements for the fiscal year ended September 30, 2013, are fairly presented in conformity with GAAP. The independent auditor's report on the basic financial statements and schedules are included in the financial section of this report.

Awards. The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its Comprehensive Annual Financial Report for the fiscal year ended September 30, 2012. The Certificate of Achievement is the highest form of recognition for excellence in state and local government financial reporting. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose contents conform to program standards. Such Comprehensive Annual Financial Reports must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year. The City has received a Certificate of Achievement for twenty-six (26) consecutive years. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to the GFOA.

We are also proud to report that the GFOA has presented the Distinguished Budget Presentation Award to the City of Georgetown for each of the past twenty-four (24) years.

Page 14 Transmittal Letter

Acknowledgments. The presentation of this report on a timely basis could not be accomplished without the efficient and dedicated services of the entire staff of the Finance Division. We would like to express our appreciation to all members of the division who assisted and contributed to its presentation. Special acknowledgment goes to Lindsay Daniell, Accounting Supervisor; Jodi Levie, Senior Accountant; La'Mar Kemp, Accountant; Chris Foster, Manager of Resource Planning and Integration; and Danella Elliott, Executive Assistant, for their dedication in preparing this report.

We would also like to thank the City Manager, Mayor and City Council. The preparation of this report would not be possible without their leadership and support.

Sincerely,

Lisa Haines, CGFO

Controller

Susan Morgan, CPA Finance Director

#### Location

Georgetown is the northern most "gateway" to the gently rolling hills of Central Texas. While Georgetown offers the amenities and charm of a small community rooted in values of days gone by, it is strategically and centrally located in the middle of the four major metropolitan areas of Texas. Austin is 26 miles south, Dallas is three hours north, Houston is three hours southeast and San Antonio is just one-and-a-half hours south, placing Georgetown in a very advantageous position for cultural and economic development. Traveling to and from Georgetown is easy, as it is at the crossroads of IH-35 going north/south and State Highway 29 going east/west. Access to Georgetown via the Austin-Bergstrom International Airport was made much easier with the opening of State Highway 130, the toll road from Georgetown to San Antonio that parallels IH-35.

#### INDEPENDENT AUDITORS' REPORT

The Honorable Mayor Members of the City Council City of Georgetown, Texas

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Georgetown, Texas (the "City") as of and for the year ended September 30, 2013, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions

#### Opinions

In our opinion, based on our audit, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Georgetown, TX as of September 30, 2013, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Emphasis of a Matter

During the fiscal year ended September 30, 2013, the City adopted the provisions of Governmental Accounting Standards Board Statement (GASBS) No. 61, The Financial Reporting Entity: Omnibus – an amendment of GASB Statement No. 14 and 24, GASBS No. 62, Codification of Accounting and Financial Reporting Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements, GASBS No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources and Net Position, and GASBS No. 65, Items Previously Reported as Assets and Liabilities. As a result of the implementation of GASBS No. 65, the City reported a change in accounting principle (See Note 12.) to remove debt issuance costs. The auditors' opinion was not modified with respect to the restatement. GASBS No. 61, 62 and 63 did not have a material effect on the financial statements.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the managements discussion and analysis, budgetary comparison information, Texas Municipal Retirement System Trend Data and Other Post Employment Benefits, and modified approach for street infrastructure capital assets on pages 27 through 38 and 101 through 102 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards, as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, is also presented for purposes of additional analysis and is not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial

statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

We also have previously audited, in accordance with auditing standards generally accepted in the United States, the City's basic financial statements for the year ended September 30, 2012, which are not presented with the accompanying financial statements. In our report dated February 21, 2013, we expressed unqualified opinions on the respective financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information. That audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's financial statements as a whole. The comparative balance sheets and statements of revenues, expenditures and changes in fund balances of the major governmental funds are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2012 financial statements. The information has been subjected to the auditing procedures applied in the audit of those financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the 2012 comparative balance sheets and statements of revenues, expenditures and changes in fund balances of the major governmental funds are fairly stated in all material respects in relation to the basic financial statements from which they have been derived.

The introductory section and statistical tables listed in the table of contents have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

#### Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated February 28, 2014, on our consideration of the City of Georgetown's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City's internal control over financial reporting and compliance.

### CITY OF GEORGETOWN, TEXAS MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of the City of Georgetown financial performance provides an overview of the City's financial activities for the fiscal year ended September 30, 2013. Please read it in conjunction with the transmittal letter at the front of this report and the City's financial statements, which follow this section.

#### FINANCIAL HIGHLIGHTS

#### General Fund

- At the end of the current fiscal year, the fund balance of the General Fund was \$13,050,103 or 23% higher than FY 2012 fund balance. The fund had \$7.4 million of committed fund balance, \$1.6 million of assigned fund balance and \$4 million of unassigned fund balance. Revenues were \$1.4 million more than the original budget estimates.
- General Fund revenues increased \$4.8 million, an increase of 15% over FY 2012. This increase is
  due to greater revenues from growth and rate increases for property taxes and environmental
  services (sanitation), growth in sales and franchise tax revenues, and a one-time receipt of master
  development fee revenues.
- General Fund expenditures increased by S2.4 million, an increase of 6% over FY 2012. This
  increase was due to public safety's restructured Step Pay Plan, operating costs for the new Fire
  Station No. 5, and city-wide salaries increased to market based on a compensation study.

#### **Governmental Activities**

- On a government-wide basis for governmental activities, the City had expenses net of program revenue of \$33.1 million. General revenues and transfers totaled \$52.9 million, resulting in an increase in net position of \$19.8 million.
- As of September 30, 2013, the City's governmental activities reported combined ending net position balances of \$216.9 million. The largest element of this balance is the value of the City's investment in capital assets which totaled \$174.8 million. Capital assets include the value of streets, parks and facilities, net of related debt.
- During fiscal year ended September 30, 2013, the City issued approximately \$32.5 million in General Obligation and Certificates of Obligation bonds for entity-wide purposes. The debt issue included \$22 million for voter-approved general capital projects for parks and public safety facilities. The City also issued \$11 million in Refunding GO bonds to retire outstanding debt issued at a higher interest rate, with a net savings of \$648,000. The City's general obligation debt is rated AA+ by Standard & Poor's and AA2 by Moody's.

#### **Business-Type Activities**

- The net position of the City's business-type activities had a current year increase of \$9.1 million.
   The current year increase is due to the continued growth of the customer base of the utility systems and \$4.6 million of infrastructure assets contributed by developers for commercial projects and residential subdivisions.
- The City's total debt issue included \$4.1 million combination tax and revenue Certificates of Obligation bonds for the construction of additional service facilities, to be paid from utility system revenues. The City's Standard & Poor's rating is AA- and the Moody's rating is AA2 on the utility system revenue debt.

#### **Entity-Wide**

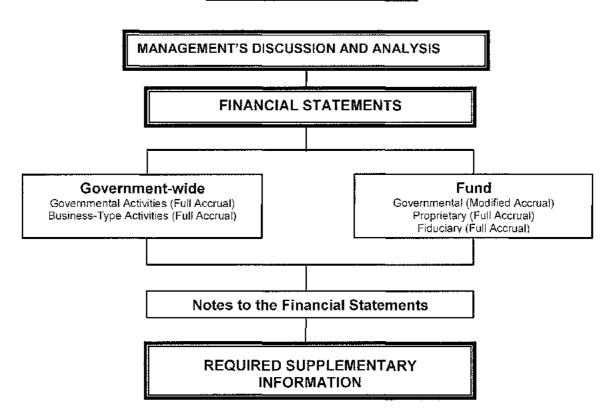

- The City's total net position on a government-wide basis was \$483.9 million at September 30, 2013, an increase of 6% over September 30, 2012. Most of this balance is invested in capital assets, restricted for specific purposes.
- The City received \$10.8 million of grants and other capital contributions in FY 2013.

#### USING THE FINANCIAL SECTION OF THIS COMPREHENSIVE ANNUAL FINANCIAL REPORT

This Comprehensive Annual Financial Report consists of three sections: introductory, financial and statistical. As illustrated in the following chart, the financial section of this report has three components: management's discussion and analysis (this section), the basic financial statements, and required supplementary information.

#### Components of the Financial Section

#### **BASIC FINANCIAL STATEMENTS**

#### **GOVERNMENT-WIDE FINANCIAL STATEMENTS**

The government-wide financial statements report information about the City as a whole, using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities, reported using the full accrual basis of accounting. The statement of activities accounts for all of the current year's revenues and expenses, regardless of when cash is received or paid.

The two government-wide statements report the City's net position and how it has changed. Net position, which is the difference between the City's assets and deferred outflows and liabilities and deferred inflows, are one way to measure the financial health of the City. Over time, increases or decreases in the City's net position is an indicator of whether its financial health is improving or deteriorating. To assess the overall health of the City, one needs to consider other non-financial factors such as changes in the City's property tax base and condition of the City's infrastructure.

#### MD&A

The government-wide financial statements of the City are divided into two categories:

**Governmental Activities** – Most of the City's basic services are included here, such as police, fire and other public safety services, parks and recreation, public library, street maintenance, environmental services, and general administration. Property and sales taxes, return on investment from the City's utility services, and charges for services finance most of these activities.

**Business-type Activities** – The City's Water Services Fund, which includes water, wastewater and irrigation services, as well as its Electric utility, are reported here. Stormwater Drainage and the City's Airport are also reported in these activities. Fees charged to customers fund the costs of providing these services.

#### **FUND FINANCIAL STATEMENTS**

The fund financial statements provide more detailed information about the City's most significant funds and will be more familiar to traditional users of government financial statements. The focus is now on major funds rather than fund types.

The City has three types of funds:

**Governmental Funds** – General Fund, Special Revenue Funds, Capital Projects Funds and the Debt Service Fund are governmental funds, which focus on:

- (1) How cash and other financial assets can readily be converted to cash flow (in and out), and
- (2) Year-end balances readily available for spending.

Consequently, the governmental funds statements provide a short-term view that helps determine whether there are greater or fewer financial resources that can be spent in the near future to finance the City's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information is provided with the governmental fund financial statements that explain the reconciliation between the fund statements and the government-wide statements.

**Proprietary Funds** – Services for which the City collects fees and rates intended to fully recover the cost of providing the service are reported in proprietary funds. Two types of proprietary funds are allowed in governmental accounting: enterprise funds and internal service funds. These funds, similar to government-wide statements, provide both long-term and short-term financial information.

The City's enterprise funds are substantially the same as its business-type activities, but the fund financial statements provide more detail and additional information, such as cash flows. The City uses enterprise funds to account for its electric, water services, airport, and stormwater drainage activities. The City uses internal service funds to report activities that provide supplies and services for the City's other programs, activities and funds. The City's internal service funds are used in providing facility maintenance, fleet services, joint services (providing administrative functions to the other funds), as well as information technology services.

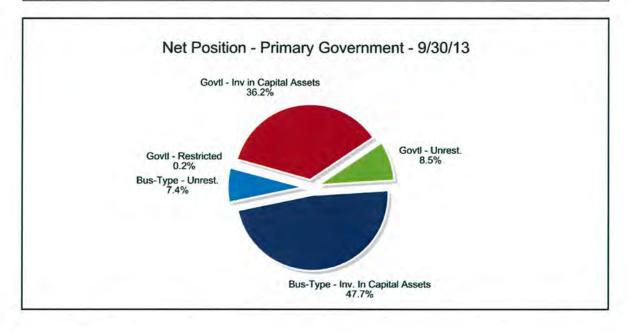

Fiduciary Funds – The City is trustee, or fiduciary, for certain amounts held on behalf of others, and for certain pass-through arrangements. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. The City's fiduciary activities are reported in a separate statement of fiduciary net assets. Assets for assessment collections for the City's public improvement districts and pass-through lease agreements for Texas Capital Fund projects are held in fiduciary funds. These fiduciary activities are excluded from the City's government-wide financial statements because the City cannot use these assets to finance its operations.

#### FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

#### Statement of Net Position:

The following table reflects the condensed Statement of Net Position:

|   | Sun |         |      | ment of l | Net | Position |     |           |     |            |        |          |

| Net Position - Ending                   | \$ 216,902 | \$ 196,80           | 3 \$    | 266,980        | \$      | 257,859 | \$ | 483,882              | \$   | 456,662 |

The City's combined net position increased by \$27 million to \$484 million from \$457 million in FY 2013.

- Net position of Governmental Activities was \$216.9 million. Most of these assets are invested in capital assets or restricted for particular purposes, such as debt service or capital projects.
- The City's unrestricted net position for governmental activities, which can be used to finance day to day operations, totaled \$41 million. Of that total, \$4 million was unassigned fund balance available for future appropriations.
- Included in unrestricted net position are fund balances that are earmarked for particular purposes, such as parks improvements, street maintenance, development, and tourism. The balance of these funds at September 30, 2013 was \$2.7 million.
- Net position invested in capital assets net of related debt for governmental activities increased \$6.7
  million, primarily due to developer contributed capital and additions to capital assets.
- Current year net position of business-type activities increased by \$9.1 million, primarily due to developer contributed capital and additions to capital assets.
- During 2013, the City invested \$16.4 million towards improving and expansion of utility infrastructure, compared to \$20.5 million in 2012.

 The City elected to early implement Governmental Accounting Standards Board Statement No. 65 in FY 2013, resulting in a one-time restatement of beginning Net Position of \$2.8 million. The restatement was to reflect previously capitalized debt issuance costs that are now expensed in the year incurred.

#### REVENUES

- Program revenues are derived from the program itself and reduce the cost of the function to the City.
   Total program revenues for both governmental and business-type activities are described below.
  - Governmental activities program revenue for the fiscal year ended September 30, 2013 was \$20.1 million, a 24.8% increase over last fiscal year. The Charges for Services category represents receipts primarily from environmental services, development and building inspection fees, parks fees, fire billing for services and court fines. Charges for services were \$13.8 million in FY 2013, an 8.7% increase from FY 2012 revenues. Increases in the Williamson County Emergency Services District No. 8 contract and new rates for environmental services saw the largest increases. Other governmental program revenues included operating grants for parks, fire and police programs, and streets.
  - Business-type activities program revenue totaled \$91.7 million, a 3.5% decrease over prior year. Capital grants and contributions were \$641,000 higher than the prior year. Charges for Services, which represent receipts from utility customers for electric, water, and wastewater, decreased \$3.9 million. Electric charges for service decreased 7.8% due to lower costs to the customers, which is offset by reduced purchased power costs. The long standing contract with LCRA for purchased power was terminated in September 2012 resulting in lower power supply costs. The lower cost has been passed through to the customers through the power cost adjustment (PCA). The PCA is changed as needed for fluctuations in fuel and transmission costs. Water charges for services increased 2.4% due to modest customer growth. Other program revenues include airport fuel sales, hangar rentals and stormwater drainage fees.
  - General revenues are revenues from taxes levied on behalf of the general government and other
    revenues used for general government activities not specific to a program or service. These
    revenues and notable changes are described below.
    - Property taxes totaled \$17 million. Included in these taxes are real and personal property levies which are assessed October 1, and payable before the following January 31.

- Assessed valuations on existing properties were nearly flat, while total assessed valuation increased 3.7% compared to the prior year. The variance is attributed to \$90 million in new and annexed property.
- The ad valorem tax rate for fiscal year 2013 was \$0.4100 per \$100 of assessed valuation. This is an increase of \$0.0225 over the prior year's rate of \$0.3875. The majority of the increase is funding new debt. The adopted tax rate is a 3.14% increase over the 2013 effective rate.
- Sales taxes, the City's second largest source of general revenue, totaled \$17 million for fiscal
  year 2013, which was an increase of 13.3% compared to the prior year. This increase in sales
  tax can be attributed to the continued economic growth in both retail sales and building
  materials. Changes in the law regarding sales tax on internet sales have also impacted the
  increase. Sales tax revenues represented 27% of the general revenue total in 2013, excluding
  the return-on-investment transfers from the utility funds.
- Hotel/motel taxes totaled \$553,143, compared to \$454,531 in FY 2012 and are included in other revenue.

#### **EXPENSES**

- Expenses for governmental activities totaled \$53.2 million, versus \$51.4 million in FY 2012. Total expenses were \$1.8 million higher than the prior year. Major expenses include the Environmental Services (sanitation) contract, salaries for providing services in the public safety area, as well as for parks and streets maintenance. Salary increases from the market compensation plan was implemented at the beginning of 2012/13. Other explanations for the increases are noted below.
  - Culture-recreation increased 4.8% over the prior year due in part to salary adjustments and an added ½ FTE.
  - Development decreased 27.8%. The decrease can be attributed to the Planning department being realigned to Management Services.
  - Fire Services increased 5.9% due to the restructured STEP pay plan that was implemented January 2013 and the October 2012 opening of the new Fire Station No. 5.
  - Streets decreased 1.9% due to the timing of scheduled maintenance of the transportation system and vacant positions.

#### MD&A

- Expenses for business-type activities totaled \$74.7 million, a 10% decrease over the prior year, which provided electric, water, and wastewater services for customers, as well as airport and stormwater drainage programs. Electric decreased while Water, Stormwater, and Airport all had increases. Notable explanations for the changes are explained below.
  - Electric decreased 17.7%. The decrease in expenses for Electric are associated with lower purchased power costs over prior year.
  - Water services increased 5.8%. The increase can be attributed to higher operating and plant management expenses due to higher water sales.
  - The 5.3% increase at the Airport is related to the fluctuations in the price of fuel compared to FY 2012.
  - Stormwater saw a 15.7% increase over the prior year due to higher personnel and operating costs.

#### FINANCIAL ANALYSIS OF THE CITY'S FUNDS

**Governmental Funds:** The City's Fund Balance is the accumulated difference between assets and liabilities within **governmental funds**, and it allows the City to meet its contractual obligations, fund disaster or emergency costs, provide cash flow for timing purposes and fund non-recurring expenses appropriated by City Council.

For the fiscal year ended September 30, 2013, the City's governmental funds reflect a combined fund balance of \$75.2 million.

The General Fund had a fund balance of \$13,050,103 for FY 2013, an increase of \$2,418,693 over FY 2012. This increase is due in part to higher than expected sales tax revenues, a one-time receipt of master development fees, sanitation contract lower than projected, salary savings, and the timing of street projects. According to the Fiscal and Budgetary Policy of the City, the use of excess fund balance is limited to non-recurring one time only expenses. City Council voted to spend the spend the excess funds for cash funding some general capital projects and set aside \$100,000 to create a perpetual Cemetery fund.

General Capital Project Fund had a fund balance of \$40 million for FY 2013 compared to \$24.3 million for FY 2012. This significant increase is due to the issuance of general obligation debt to fund general capital projects. The City issued \$22 million of debt to fund voter-approved parks and public safety projects. The City expended \$9.8 million on various general capital projects.

Non-major governmental funds include an increase in fund balance of \$664,000 due to the funding and timing of street improvement projects in the Sales Tax Maintenance Fund.

General Debt Service Fund reflects a decrease of \$640,000 in fund balance in FY 2013. This decrease is due to the repayment of bond principal and payment to escrow in conjunction with the advance refunding of debt.

Georgetown Transportation Enhancement Corporation (GTEC), the City's blended component unit had a 15% increase in fund balance due to the timing of capital improvement projects. GTEC contributed \$4.1 million in transportation improvements to facilitate economic development in 2013.

**Business-type Activities:** The City's **proprietary fund** statements provide the same type of information found in government-wide financial statements, but in more detail.

Total unrestricted net position for as of September 30, 2013 totaled \$36 million, which included \$12 million for Electric, \$22 million for Water and \$2 million for all other Non-Major funds. The change in net position for FY 2013 was \$9.1 million resulting primarily from continued growth in the City's utility systems and capital improvements.

#### **GENERAL FUND BUDGETARY HIGHLIGHTS**

The original and final budget of the General Fund changed due to a budget amendment for an increase in Culture-recreation programs, environmental services relating to fuel, street maintenance projects and grant matches. The variance between the actual ending fund balance at September 30, 2013 of \$11.4 million and the final budgetary fund balance of \$8 million is attributed to higher than expected sales tax and franchise tax revenues, increased property tax revenues and environmental services from the adopted rate increases, and receipt of a one-time master development fee. Expenditures were less than budgeted primarily due to timing of projects and vacant positions.

#### **CAPITAL ASSETS**

The City's governmental activities (including the internal service funds) had invested \$268 million in a variety of capital assets and infrastructure. The City has \$288 million invested in its business-type activities capital assets. The detail is reflected in the following schedule:

|   |     | Government<br>Change in C<br>(In the | apita | al Assets*      |    |                          |    |                      |

### MD&A

The City prepared a complete inventory of street infrastructure assets in 2003 and 2004 and assigned a value to the inventory based upon the age of the street and construction indexes. This established a base line for inventory reporting under the modified approach for GASB 34 reporting.

The Council adopted a financial policy that establishes an average condition level of 85 to maintain the streets in "good" condition. The Pavement Condition Index (PCI) is a measurement scale for pavement condition, ranging from zero (poor) to 100 for pavement in perfect condition. The PCI for fiscal years 2005-2007 was 91 and 2008-2010 was 93. During 2011, the City contracted with Fugro Consultants, Inc. to reassess the condition of the pavement management system. The PCI for 2011 was 88. This decease can be attributed to recently annexed areas with streets needing improvements. This assessment is conducted every three years and will be reevaluated in 2014.

The City budgets approximately \$1.3 million annually of General Fund revenues for on-going street maintenance projects, along with the staff and maintenance costs of the street department. In addition, the City also budgets for the approximate \$2 million of funds received in dedicated 1/4 cent sales tax for street maintenance. The maintenance funds are allocated among various projects identified by the analysis to ensure funds are spent where needed to maintain the PCI adopted by Council.

Utility infrastructure maintenance is budgeted within the utility funds. For fiscal year 2013, funding for electric and water services infrastructure maintenance was \$1.4 million.

Major capital assets added in FY 2013 are noted below:

| <ul> <li>Gene</li> </ul> | ral Capital | Projects: |

| Arbitrage rebate payable       | 15          | 15         |           |             | 15_            | 15         |
| Total Long Term Debt           | \$ 131,220  | \$ 114,770 | \$ 63,557 | \$ 64,551   | \$ 194,777     | \$ 179,321 |

- As of September 30, 2013, the City had a total of \$131 million in general obligation debt outstanding. This represents a 17% increase over prior year. This increase reflects \$5 million of General Obligation bonds for park projects, as well as the final \$17 million for the Public Safety Operations and Training Center.
- The state limits the legal amount of tax levy available for general obligation debt service to \$1.50 per \$100 valuation. The City's 2013 debt levy equaled \$0.17363 per \$100 assessed valuation, or 11.58% of the maximum allowed.
- Other long-term debts included are compensated absence payable, net pension obligation, other
  post-employment benefits and arbitrage rebate payable. These experienced a slight increase over
  FY 2012 of \$746,000, primarily due to an increase in compensated absence payable.
- In May 2013, the City issued \$11,005,000 in General Obligation Refunding Bonds with an average interest rate of 3.4%. The City advanced refunded bonds to reduce its total debt service payments over the next 13 years to obtain a net economic gain of approximately \$648,000.
- A detailed analysis of the City's long-term debt is located on pages 80-87 in the notes to the financial statements.

### **ECONOMIC FACTORS**

During FY 2013, the City continued to see strong improvements in the local and regional economy. Total sales tax receipts grew to \$17.0 million, or by 13% over 2012, an increase over pre-economic downtown receipts for the 4<sup>th</sup> consecutive year. The growth in residential and commercial development continued in FY 2013 with \$294.9 million in new permits; while at the same time, unemployment continued to drop from 7.08% in 2012 to 5.70% in 2013. The residential growth in the City's utility service area, which includes both the city limits and the City's extra territorial jurisdiction (ETJ), continued its 2-4% growth rate.

The adopted FY 2014 budget assumes continued modest growth in new property of approximately \$124 million and an adopted tax rate increase of 7.2% or \$0.4395 per \$100 valuation. Sales tax revenues are

### MD&A

expected to continue modest growth for FY 2014. This modest, but conservative, growth trend is also anticipated in the City's utility funds.

### DISCRETELY PRESENTED COMPONENT UNIT

The Georgetown Economic Development Corporation (GEDCO) has been included in the reporting entity as a discretely presented component unit since it provides benefits to other entities aside from the City. Separate audited financial statements are not issued for GEDCO.

### CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This report is designed to provide City Council, citizens, customers, bond rating agencies, investors and creditors with a general overview of the City's finances. If you have questions about this report or need additional financial information, contact:

## RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION SEPTEMBER 30, 2013

| Total fund balance - total governmental funds  | \$<br>75,242,525  |
|--|-------------------|
| Amounts reported for governmental activities in the statement of net position are different because:   |                   |
| Capital assets used in governmental activities are not current financial resources and therefore are not reported in the governmental funds balance sheet.   | 258,019,562       |
| The City uses internal service funds to charge the costs of certain activities, such as capital assets, administrative services and information technology to appropriate functions in other funds. The assets and liabilities of the internal service funds are included in governmental activities in the extraord of not position. The effect of this appropriate funds are included in governmental. |                   |
| activities in the statement of net position. The effect of this consolidation is to increase net position.   | 13,703,104        |
| Premiums and discounts on issued bonds have not been included in the fund financial statements.  | (99,981)          |
| Bonds payable and contractual obligations are not due and payable in the current period and, therefore, have not been included in the fund financial statements.   | (125,593,107)     |
| Repayment of bond principal and the payment to escrow in conjunction with the advance refunding of debt reflects a reduction to liabilities in the statement of net position.  | 1,259,524         |
| Accrued liabilities for accrued employee benefits are not due and payable in the current period and, therefore, have not been included in the fund financial statements.   | (5,374,515)       |
| Liabilities for arbitrage are not due and payable in the current period and, therefore, have not been reflected in the fund financial statements.  | (14,650)          |
| Revenues from property taxes are deferred in the fund financial statements until they are considered available to fund current expenditures, but such revenues are recognized in the government-wide statements.   | 336,229           |
| Interest is accrued on outstanding debt in the government-wide financial statements, whereas in the fund financial statements interest expense is reported when due.   | <br>(576,159)     |
| Net Position of Governmental Activities  | \$<br>216,902,532 |

The notes to financial statements are an integral part of this statement.

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES FISCAL YEAR ENDED SEPTEMBER 30, 2013

| Net change in fund balances - governmental funds  | \$<br>19,818,478 |
|---|------------------|
| Amounts reported for governmental activities in the statement of activities are different because:  |                  |
| The City uses internal service funds to charge the costs of certain activities, such as fleet management and information technology, to                     |                  |
| appropriate functions in other funds. The assets and liabilities of internal service funds are allocated to the governmental activities                     |                  |
| on the statement of net position. The effect of this consolidation is to increase net position. The entry on the statement of activities reflects           |                  |
| the change for FY 2013, which is allocated to governmental activities.  | 852,970          |
| Current year capital outlays are expenditures in the fund statements,   |                  |
| but are shown as increases in capital assets in the government-wide financial statements. The total reflects \$21,009,327 in construction in                |                  |
| progress reclassifications. The effect of removing the 2013   |                  |
| capital outlays is to increase net position.  | 15,059,711       |
| Capital assets contributed by developers to the City are not recorded in the governmental   |                  |
| funds as they do not provide current financial resources but are recognized in the<br>Statement of Activities as program revenues.                          | 2,210,522        |
| Statement of Activities as program revenues.  | 2,210,522        |
| Depreciation is not recognized as an expenditure in governmental funds  |                  |
| since it does not require the use of current financial resources. The   |                  |
| effect of recording current year depreciation is to decrease net position.  | (2,698,931)      |
| Some revenues and expenses reported in the statement of activities do not require   |                  |
| the use of current financial resources and therefore are not reported as either expenditures or revenues in governmental funds:                             |                  |
| expenditures of revertibles in governmental runds.  |                  |
| Amortization of bond premiums   | 16,664           |
| Amortization of deferred charge on refunding  | (65,447)         |
| Current year long-term debt principal payments on contractual obligation  |                  |
| bonds payable are expenditures in the fund financial statements, but are shown as reductions in long term debt in the government-wide financial statements. | 16,746,149       |
| аз геоволого и топу вени версия иго доменивеньмое инапвак эккепленка.   | 10,140,148       |
| Current year bond proceeds on bonds are not shown as  |                  |
| revenue in the government-wide financial statements.  | (32,562,592)     |
|   |                  |

The notes to financial statements are an integral part of this statement.

| Repayment of bond principal and the payment to escrow in conjunction with the advance refunding of debt are reported as expenditures in the fund financial statements, whereas the government-wide financial statements do not record the expenditures; rather, it reflects a reduction to liabilities in the statement of net position. | \$        | 1,063,184  |
|--|-----------|------------|
| Interest is accrued on outstanding debt in the government-wide financial statements, whereas in the fund financial statements, the expenditure is reported when due.   |           | 14,468     |
| Additions to vested sick leave and vacation liabilities are not shown in the fund financial statements. The net effect of the current year's increase is to decrease net position.   |           | (533,085)  |
| Annual required contribution for other post employment benefits are recorded in the government-wide financial statements net of the the expense recognized on a pay as you go basis.   |           | (98,819)   |
| Annual required contribution for pension obligations are recorded in the government-<br>wide financial statements net of the expense recognized on current year actual<br>contribution.  |           | (9,317)    |
| Revenue from property taxes is recognized in the fund financial statements on the modified accrual basis, but is recognized on the accrual basis in the government-wide financial statements.  |           | (4,126)    |
| Change in Net Position of Governmental Activities  | <u>\$</u> | 19,809,829 |

### Notes to the Financial Statements

### NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of the City of Georgetown, Texas, ("City"), included in the accompanying basic financial statements conform to the generally accepted accounting principles (GAAP) applicable to state and local governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following notes to the financial statements are an integral part of the City's Comprehensive Annual Financial Report.

### A. Financial Reporting Entity

The City of Georgetown was incorporated under the laws of the State of Texas in 1848 and operates under a Council-Manager form of government. The City's financial statements include the accounts of all City operations. Generally accepted accounting principles require all funds that are controlled by or are dependent on the City Council to be included in the City's financial statements. The reporting entity is the primary government, or the City, and those component units for which the primary government is financially accountable. Financial accountability is defined as the appointment of a voting majority of the potential component unit's board and either the ability to impose its will by the primary government or the possibility that the component unit will provide a financial benefit or impose a financial burden on the primary government. Blended component units, although legally separate entities are, in substance, part of the government's operations and so data from these units are combined with the data of the primary government. Based upon these considerations, the City's financial statements include the Georgetown Transportation Enhancement Corporation as a blended component unit. Discretely presented component units, on the other hand, are reported in a separate column in the government-wide financial statements to emphasize they are legally separate from the primary government, and whose exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Based upon these considerations, the City's financial statements include the Georgetown Economic Development Corporation as a discretely presented component unit.

### BLENDED COMPONENT UNIT

The Georgetown Transportation Enhancement Corporation (GTEC), the City's 4B economic development corporation, is a legally separate entity from the City that was created in May 2001 by voters approving an additional sales tax. GTEC is governed by a seven member board appointed by City Council, of which, four are Council members. The City Council maintains budgetary control over the corporation. The City Manager serves as the General Manager of the corporation and the City's Chief Financial Officer acts as the Financial Manager. For financial reporting purposes, GTEC is presented as a blended component unit within City operations because its sole purpose is to utilize sales tax revenues for the improvement of the City's transportation system. The revenues and expenditures for GTEC are accounted for in a general capital projects fund. The City issues debt on behalf of GTEC in exchange for pledged sales tax revenue that is transferred to the City to reimburse for debt service related to the bonds. GTEC's debt is shown in the Governmental Activities in the Statement of Net Position.

### DISCRETELY PRESENTED COMPONENT UNIT

The Georgetown Economic Development Corporation (GEDCO) has been included in the reporting entity as a discretely presented component unit. GEDCO can not be considered a blended component unit because the revenues are not only for the benefit of the City. GEDCO was created by the City in May 2005, under the Texas Development Act of 1979 for the purpose of promoting, assisting, and enhancing economic and development activities on behalf of the City.

### NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

It is funded through voter authorized sales tax. The five member Board, which includes three City Council members, is appointed by and serves at the discretion of the City Council. City Council approval is required for annual budgets and bonded debt issuance. In the event of dissolution, net assets of GEDCO shall be converted to the City. The City accounts for GEDCO as a discretely presented component unit on the government-wide financial statements.

GEDCO is audited as part of the City of Georgetown; however, separately issued unaudited financial statements are available through the City of Georgetown's Finance Department.

### RELATED ORGANIZATIONS

The Mayor and City Council are responsible for appointing a voting majority of the members of some local boards and commissions, but the City's accountability for these organizations does not extend beyond making the appointments. These entities are the Georgetown Industrial Development Corporation, Georgetown Hospital Authority, Georgetown Housing Authority, and Georgetown Higher Education Finance Corporation.

### Basis of Presentation

### BASIC FINANCIAL STATEMENTS

The basic financial statements include both government-wide financial statements (based on the City as a whole) and fund financial statements. Both sets of financial statements classify activities as either governmental, which are supported by taxes and intergovernmental revenues, or business-type activities, which rely on fees and charges for support.

Government-wide financial statements. The government-wide Statement of Activities demonstrates the degree to which the direct expenses of a given program or function is offset by the program's revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given program and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items not properly included among program revenues are reported instead as general revenues. The effect of interfund activity within the governmental and business-type activities columns has been removed from these statements.

Fund financial statements. The City segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Each fund is considered a separate accounting entity and the operations of each fund are accounted for using a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. Separate statements are presented for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. These statements present each major fund as a separate column on the fund financial statements; all non-major funds are aggregated and presented in a single column.

The government wide focus is on the sustainability of the City as an entity and the change in net financial position resulting from the activities of the fiscal period. The focus of the fund financial statements is on the major individual funds of the governmental and business-type categories.

### NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

Each presentation provides a different focus, which allows the reader to compare and analyze the information to enhance the usefulness of the statements.

### **GOVERNMENTAL FUND TYPES**

Governmental Funds are those funds through which most governmental functions typically are financed. The measurement focus of governmental funds (in the fund financial statements) is on the sources, uses and balance of current financial resources and include the General Fund, Special Revenue Funds, Debt Service Fund and Capital Projects Fund. The individual funds are described as follows:

### Major Governmental Funds

General Fund - The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

Georgetown Transportation Enhancement Corporation (GTEC) – This capital projects fund is used to account for the City's 4B Corporation activities, created to administer the voter approved ½ cent sales tax for transportation improvements that aid in economic development efforts.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

General Capital Projects Fund – This capital projects fund is used to account for financial resources to be used for the acquisition or construction of parks, buildings, and other facilities. Such resources are derived from proceeds of general obligation bonds or other sources of revenue specifically set aside for capital projects.

### Non-major Governmental Funds

Special Revenue Funds - The Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are restricted to expenditures for specified purposes.

### PROPRIETARY FUND TYPES

The Proprietary Fund Types are used to account for the City's organization and activities which are similar to those often found in the private sector. These funds are financed and operated in a manner similar to private business enterprises — where the intent of the City is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered mainly through user charges; or where the governing body has decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

### Major Proprietary Funds

*Electric Fund* – This fund accounts for the City's electric utility, including operations, maintenance of the infrastructure and expansion of the system within the City's service territory.

### NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

Water Services Fund — This fund accounts for the City's water, sewer and water reuse systems, including operations, contracted maintenance, internal maintenance, expansion of the system within the City's service territory and the costs of environmental mandates that arise.

### Non-major Proprietary Funds

Enterprise Funds - The funds that are operated as enterprise funds within the City but are not considered major funds are the Stormwater Drainage and Airport Funds.

Internal Service Funds - The Internal Service Funds, which provide services primarily to other funds of the government, are presented in the summary form as part of the proprietary fund financial statements. The financial statements of the internal service funds are allocated in the governmental column when presented at the government-wide level. Various operations are accounted for as internal service funds, such as operational costs associated with automobile and heavy equipment owned by the City and made available to various departments, costs related to maintaining and repairing City owned facilities, operational costs associated with the City's computer equipment within various departments, as well as jointly shared administrative departments.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds principal on-going operations. Operating expenses for the proprietary funds include the cost of personnel and contractual services, supplies and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

### FIDUCIARY FUND TYPE - AGENCY FUNDS

The City's fiduciary fund is presented in the fund financial statements by type. Since by definition, these assets are being held for the benefit of a third party (cafeteria plan participants, local grantees, public improvement district, etc.) and cannot be used to address activities or obligations of the government, these funds are not incorporated in the government-wide statements.

### Measurement Focus/Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Measurement focus refers to what is being measured and basis of accounting refers to timing of revenue and expenditure recognition in the financial statements.

The government-wide statements and fund financial statements for proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency fund also uses the accrual basis of accounting. The economic resources measurement focus means all assets and liabilities (whether current or non-current) are included on the statement of net position and the operating statements present increases (revenues) and decreases (expenses) in net total position. Under the accrual basis of accounting, revenues are recognized when earned, including unbilled utility services which are accrued. Expenses are recognized at the time the liability is incurred.

### NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

Governmental fund financial statements are reported using the current financial resources measurement focus and are accounted for using the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The City considers all revenues available if they are collected within sixty (60) days after year-end. Expenditures are recognized when the related fund liability is incurred, if measurable, except for principal and interest on general long-term debt, which are recorded when due, and compensated absences, which are recorded when payable from current available financial resources.

Ad valorem, sales, hotel, and franchise tax revenues recorded in the Governmental Fund Types are recognized under the susceptible to accrual concept. Licenses and permits, charges for services, fines and forfeitures, and miscellaneous revenues (except earnings on investments) are recorded as revenues when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned since they are measurable and available.

### D. Budgets

At least 30 days prior to the end of each fiscal year, the City Manager submits a proposed budget presenting a complete financial plan for the ensuing fiscal year to the City Council (the Council). Public hearings are conducted, at which time all interested persons' comments concerning the budget are heard. The budget must be legally adopted by the Council through passage of an ordinance no later than the twenty-seventh day of the last month of the fiscal year.

Formal budgetary integration is employed as a management control device during the year for all Governmental and Proprietary Fund Types. Budgets for all funds were legally adopted for the period. Budgetary control is exercised at the division level. All budgets are prepared on the budgetary basis, recognizing encumbrances outstanding at year-end as expenditures against that year's appropriation. These encumbrances are reconciled to generally accepted accounting principles where appropriate.

The Council may transfer any unencumbered appropriation balance or portion thereof from one division, office, department or agency to another at any time. The City Manager has authority, without Council approval, to transfer appropriation balances from one expenditure account to another within a single division, office, department, or agency of the City; however, unbudgeted transfers between funds are prohibited.

The Council may authorize by a majority plus one vote, an emergency expenditure as an amendment to the original budget, but only in a case of grave public necessity, to meet an unusual and unforeseen condition that could not have been included in the original budget through the use of reasonable, diligent thought and attention.

### NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

Budget amounts are as originally adopted, or as transferred pursuant to authorization of the City Manager or amended by the City Council. Individual amendments were not material in relation to the original appropriations, with the exception of amendments related to capital projects and grant expenditures, whose actual costs were unknown when the budget was adopted. Unencumbered appropriations lapse each year at September 30.

The Statement of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual-General Fund presents a comparison of budgetary data to actual results. The General Fund utilizes the same basis of accounting for both budgetary purposes and actual results, except for the effect of encumbrances and unrealized investment gains and losses, which are reconciled to the actual results for this comparison.

### E. Encumbrances

Encumbrance accounting is employed as an extension of formal budgetary control in all governmental and proprietary funds. Encumbrance accounting is a process whereby purchase orders, contracts and other commitments for the expending of monies are recorded in order to reserve that portion of the applicable appropriation. Outstanding year-end encumbrances are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments are carried forward into the subsequent fiscal year.

### F. Cash and Investments

For cash flow purposes, cash and cash equivalents consist of demand deposits, certificates of deposits and deposits in authorized investment pools.

The operating cash balances from all funds are consolidated in pooled cash and investment accounts. Excess pooled balances are invested in U.S. Treasury securities, U.S. Government agency securities, fully collateralized money market funds and local government investment pools. Maturities on all investments are consistent with the City's cash flow requirements. Investments are stated at fair value, or market price as of September 30, 2013. Interest earnings are then allocated to each fund based on average monthly pooled equity balances. Separate cash and investment accounts are maintained for restricted cash such as debt service and bond proceeds reserved for future construction.

### G. Restricted Assets

Certain cash and investments are restricted by various legal and contractual obligations. Included in the restricted assets are capital recovery fees (impact fees) restricted by law for future capital improvements and customer deposits.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

### H. Inventories and Prepaids

Inventories consist of electric materials, jet fuel, office and other supplies valued at the weighted average cost method and are recognized as expenditures or expenses when used. The prepaid items consist of required payments made to a vendor for a contract in the following fiscal year.

### NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

### Interfund Receivables and Payables

Short-term advances between funds are accounted for in the appropriate interfund receivable and payable accounts. Negative balances incurred in pooled cash at year-end are treated as interfund receivables of the Water Services Fund and interfund payables of the deficit fund.

### J. Interfund Transactions

All legally authorized transfers have been appropriately presented as interfund transfers and are included in the fund financial statements of both Governmental and Proprietary Fund Types. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

### K. Intergovernmental Revenues

Intergovernmental revenues represent entitlements and shared revenues which are accounted for within the fund financed. Such revenues, received for purposes normally financed through the general government, are accounted for within the Special Revenue Funds.

### L. Accrued Employee Benefits

All employees may accumulate a maximum of two times their annual vacation, up to a cap of 240 hours, or 30 days paid upon termination. Upon termination, non-Civil Service employees will not receive payment of sick leave, unless they have a balance that originated prior to October 1, 2004. These employees were grandfathered under the old policy of receiving payment for one-half of their balance of sick leave up to 60 days at the rate of pay when the hours were banked. Upon termination, Civil Service employees are paid for the entire balance of their Civil Service sick leave earned after October 30, 2003 or October 30, 2006 (the effective date of the regulations in the City for fire civil service and police civil service employees, respectively), up to a maximum of 90 days. Civil Service employees hired prior to the effective date of the adoption of Civil Service regulations are also eligible under city policy to receive payment for one-half of their sick leave up to 60 days. Sick leave in excess of the maximums for both regular and Civil Service employees is not paid upon termination, but will be paid only upon illness while in the employ of the City.

Accumulated vacation and sick leave, which is expected to be liquidated with expendable available financial resources, is reported as expenditure and a fund liability of the governmental fund that will pay it. Amounts of accumulated vacation leave within governmental funds that are not expected to be liquidated with expendable available financial resources are reported as a long-term liability on the statement of net position. No expenditure is reported for these amounts in the fund financial statements unless the benefits have matured, i.e. unused reimbursable leave still outstanding following an employee's resignation or retirement. Accumulated vacation and sick leave of proprietary fund types are recorded as an expense and liability of those funds as the benefits accrue to employees.

Net pension obligation (NPO) is recorded as an accrued employee benefit liability in the government-wide financials and the proprietary fund statements. The NPO is equal to the amount that the annual required contribution for the retirement plan, with Texas Municipal Retirement System, exceeds the actual contribution on a cumulative basis.

### NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

### M. Capital Assets

### Capital Assets other than Streets & Drainage:

Capital assets, which include property, plant, equipment and infrastructure assets, are reported in the applicable governmental or business-type activities column in the government-wide financial statements and in the fund financial statements for proprietary funds. All capital assets are valued at their historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their fair value on the date donated. Repairs and maintenance are recorded as expenses. Renewals and betterments are capitalized.

Assets capitalized, not including infrastructure assets, have an original cost of \$5,000 or more and an expected useful life of over one year.

Interest incurred during the construction phase of capital assets of business-type activities is capitalized. Interest of \$345,449 was capitalized in enterprise funds during the 2013 fiscal year.

Depreciation for assets not following the modified approach is computed using the straight-line method on the composite assets based upon the estimated useful lives as follows:

Distribution systems 25-50 years
Buildings and improvements 10-20 years
Furniture, fixtures and equipment 3-10 years

The City records capital contributions to proprietary funds as revenue. Total capital contributions to the enterprise funds in fiscal year 2013 were \$4,558,296 and \$66,445 in the internal service funds. Contributed capital is not recorded for governmental type funds, but is recognized as having a value of \$3,000,249.

### Capital Assets - Streets & Drainage:

Governmental Accounting Standards Board Statement No. 34 provides for an alternative approach to depreciation for measuring the value of infrastructure assets and the related costs incurred to maintain their service life at a locally established minimum standard. In order to adopt this alternative method, the City must use an asset management system, and must determine if the minimum standards are being maintained. This measurement occurs every three years at a minimum. The City has elected to use this alternative method for reporting its street infrastructure assets. The City contracted with the engineering firm of Kasberg, Patrick and Associates to complete pavement condition surveys for the City's street network during 2011.

The City uses the CarteGraph PavementView Pavement Management Information System to track the condition levels of each of the street sections. The entire streets inventory is captured in the system and the condition of the pavement is based on the following factors:

### NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

- Type of Distress
- Amount of Distress
- · Severity of Distress
- Deduct Values (function of the first three)

The Pavement Condition Index (PCI) is a measurement scale based upon a condition index ranging from zero for a failed pavement to 100 for pavement with perfect condition. The condition index is used to classify pavement in the following conditions:

| PCI      | Rating |
|----------|--------|
| 100 - 85 | Good   |
| 84 - 45  | Fair   |
| 44 - 0   | Poor   |

The PCI for fiscal year 2011 is 88. The previous score for 2008-2010 was 93. This will be reevaluated in 2014 The City's administrative policy is to maintain an average PCI level of 85. An 85 PCI is considered maintaining the streets in a "good" condition. Staff prepares a street maintenance budget that meets this target for Council's consideration during the budget process.

### N. Long-term Obligations

The portion of long-term general obligation debt used to finance proprietary fund operations and payable from the revenues of the Enterprise Funds is recorded in such funds. General obligation bonds and other forms of long-term debt supported by general revenues are obligations of the City as a whole and not its individual funds. Accordingly, such unmatured obligations of the City are accounted for on the statement of net position and payments of principal and interest relating to the general obligation bonds are recorded as expenditures when they are paid in the fund statements. Self-supporting general obligation debt, which will be repaid from non-general revenue sources, is recorded in the appropriate proprietary fund.

### O. Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Specifically, the actuarial calculations used to determine the annual required contributions and related liabilities of the City's retirement plan and post-employment obligations are based on assumptions about the possibility of events far into the future. Accordingly, actual results could differ from those estimates.

### P. Comparative Data/Reclassification

Comparative total data for the prior year have been presented in selected sections of the accompanying financial statements in order to provide an understanding of the changes in the City's financial position and operations. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

### NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

### Q. Risk Financing Activity

The City of Georgetown is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omission; injuries to employees; and natural disasters. During fiscal year 2013, the City purchased general liability and property insurance from Texas Municipal League Intergovernmental Risk Pool (TML-IRP). The City pays an annual premium to TML-IRP for such coverage. TML-IRP purchases reinsurance and the City does not retain risks of loss exceeding deductibles. Settled claims have not exceeded insurance coverage in the past three years.

The workers compensation plan is administered and paid through the Texas Municipal League-Intergovernmental Risk Pool (TML-IRP). Under this plan, the City does not retain risks of loss exceeding the deductibles. TML-IRP also brokers the City's Aviation and Underground Storage Tank Pollution liability insurance, as well as, the canine and surgical vet coverage. The City does not retain the risks of loss exceeding the deductibles.

### R. Credit Risk

Financial investments which potentially subject the City to concentrations of credit risk consist principally of cash, investments and accounts receivable. At September 30, 2013, there was not a significant risk arising from cash, investments or accounts receivable.

### S. Nature and Purpose of Reservations and Designation of Fund Equity

The City's Fund Balance is the accumulated difference between assets and liabilities within **governmental funds**, and it allows the City to meet its contractual obligations, fund disaster or emergency costs, provide cash flow for timing purposes and fund non-recurring expenses appropriated by City Council. The City Council has adopted a financial standard to maintain a General Fund minimum balance of 90 days of budgeted on-going expenditures and 75 days citywide. This policy establishes limitations on the purposes for which Fund Balances can be used in accordance with Governmental Accounting Standards Board (GASB) Statement Number 54.

The City's Fund Balance reports five components:

Non-spendable Fund Balance – includes inherently non-spendable assets that will never convert to cash, as well as, assets that will not convert to cash soon enough to affect the current financial period. Assets included in this category are prepaid items, inventory and non-financial assets held for resale.

<u>Restricted Fund Balance</u> – represents the portion of fund balance that is restricted to specific purposes that are externally imposed by creditors, grantors, contributors, laws or regulations of other governments, such as hotel/motel tax and bond proceeds.

<u>Committed Fund Balance</u> – describes the portion of fund balance that can only be used for specific purposes with constraints imposed by the formal action of the City Council's adoption of an ordinance, and remains binding unless the City Council removes the limitation.

<u>Assigned Fund Balance</u> – is that portion of fund balance that reflects the City's *intended* use for a specific purpose but is neither restricted nor committed. Assigned fund balances are determined by City management based on Council direction, in accordance with our financial policies adopted by resolution.

<u>Unassigned Fund Balance</u> – represents funds that cannot be properly classified in one of the other four categories

#### T. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position and or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflow of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has only one item that qualifies for reporting in this category. It is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunded debt results from the difference in the carrying value of the refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position and or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has only one type of item, which arises only under a modified accrual basis of accounting, which qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The governmental funds report unavailable revenues from property tax revenue.

#### U. Net Position

Net position represents the difference between assets, liabilities and respective deferred outflow or inflows of resources. Net investments in capital assets net of accumulated depreciation and the outstanding balances of any borrowing spent for that acquisition, construction or improvements of those assets. Net position is reported as restricted when there are limitations imposed on their use either through (1) the enabling legislation adopted by the City, (2) through external restrictions imposed by grantors, or (3) laws or regulations of other governments.

# NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

#### 2. CASH AND INVESTMENTS

For cash flow purposes, cash and temporary investments consist of demand deposits, certificates of deposits, and authorized investment pools. The operating cash balance from all funds is consolidated in pooled cash and investment accounts. Excess pooled balances are invested in U.S. Treasury securities, U.S. Government agency securities, fully collateralized money market funds and local government investment pools. Maturities on all investments are consistent with the City's cash flow requirements. Investments are recorded at cost. Interest earnings are allocated to each fund based on average monthly pooled equity balances. Separate cash and investment accounts are maintained for restricted cash such as debt service, utility debt reserves, and bond proceeds reserved for future construction.

The investment policies of the City are governed by State statutes and a City Council adopted Investment Policy. Major provisions of the City's investment policy include: responsibility for investments, authorized investments, security dealer selection and qualifying procedures, safekeeping and custodial procedures, statement of investment objectives, and investment reporting requirements.

#### **DEPOSITS**

Texas Statutes require that all bank deposits be insured or fully collateralized by the U.S. government obligations or obligations of the State of Texas and its agencies. Market value of the collateral pledged must equal at least 102% of the bank deposits not covered by federal deposit insurance.

At year-end, the carrying amount of the City's bank deposits was \$8,563,210 and the bank balances were \$7,986,704 all of which were entirely covered by Federal depository insurance or by collateral held by the City's agent bank in the City's name. The City's discretely presented component unit had a carrying amount of negative \$1,114,325 at year end, which is offset by daily liquidity deposits held in Texstar. Bank balances were a positive \$4,552,543. In addition, the City's Certificates of Deposits of \$29,811,075 are insured or fully collateralized in accordance with Texas statutes as described above.

In order to maximize interest earnings, the City utilizes a controlled disbursement account, which allows the City to deposit only as much money as needed to fund checks presented each day.

#### **INVESTMENTS**

The City is authorized to invest in certificates of deposit, direct obligations of the U.S. government, U.S. government agency securities, fully collateralized direct repurchase agreements, no-load money market funds whose portfolios meet the City's investment requirements, and in qualified local government investment pools as approved by the City Council.

Market Risk - Market risk is the potential for a decline in market value due to rising interest rates. In compliance with the City's Investment Policy, as of September 30, 2013, the City minimized the market risk in the portfolio by limiting the weighted average maturity of security types to no longer than two years; structuring the investment portfolio so that securities matured to meet cash requirements for ongoing operations and capital improvement projects; monitoring credit ratings of portfolio positions to assure compliance with rating requirements imposed by the Public Funds Investment Act; and investing operating funds primarily in shorter-term securities and similar government investment pools.

# NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

The City's investments carried at fair value as of September 30, 2013, are:

Portfolio weighted average maturity:

Carrying Amount - Demand Deposits

Total Cash & Investments:

S (1.114,325)

S 3,438,218

Credit Risk - Credit risk is the possibility that the issuer of a security will fail to make timely payments of interest or principal. In general, the lower the credit quality of a security, the higher the yield, with all

of interest or principal. In general, the lower the credit quality of a security, the higher the yield, with all other factors being equal. In compliance with the City's Investment Policy, as of September 30, 2013, the City minimized credit risk losses due to default of security issuer or backer by limiting investments to the safest types of securities; pre-qualifying the financial institutions, broker/dealers, intermediaries, and advisors with which the City will do business; and diversifying the investment portfolio so that potential losses on individual securities were minimized. All the City's purchased investments in U.S. Agencies were rated AAA, AAA, and Aaa by Standard & Poors, Fitch and Moody's respectively.

For short-term liquidity requirements, the City primarily utilizes the Texas Short Term Asset Reserve Program (TexSTAR). JPMorgan Fleming Asset Management, Inc. and First Southwest Asset Management, Inc. serve as co-administrators under an agreement with the TexSTAR board of directors to provide investment and participant services for this pool. JPMorgan Chase Bank or its subsidiary J.P. Morgan Investor Services Co. provides the custodial, transfer agency, fund accounting, and depository services for this pool.

The City also maintains an account with the Texas Local Government Investment Pool (TexPool). Under the TexPool Participation Agreement, administrative and investment services to TexPool are provided by Federated Investors, Inc. through an agreement with the State of Texas Comptroller of

# NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

Public Accounts. The State of Texas Comptroller of Public Accounts is the sole officer, director, and shareholder of the Texas Treasury Safekeeping Trust Company authorized to operate TexPool.

At year end, balances in TexSTAR and TexPool were rated AAAm by Standard & Poor's. TexSTAR and TexPool operate on a \$1 net asset value basis. In order to maintain a stable \$1 price of the fund, the pools will sell portfolio holdings if the ratio of the fair value of the portfolio divided by the book value of the portfolio is less than 0.995 or greater than 1.005. The pools are stated at their fair value.

During 2013, the City realized no gains or losses from the sale of investments, as the City's investment strategy is to invest to maturity. The City recognized a net increase in the fair value of investments held at year-end of \$2,503.

#### TAXES

Property Taxes - Property is appraised and a lien on such property becomes enforceable as of January 1st of each year. Taxes are levied on and payable the following October 1st. Taxes become delinquent February 1st of the following year and are subject to interest and penalty charges. Under an agreement which began August 1, 2000, Williamson County Tax Office collects the City's taxes. In the fund financial statements, City property tax revenues are recognized when levied to the extent that they are collected in the current year. Taxes collected prior to the levy date to which they apply are recorded as unearned revenues and recognized as revenue of the period to which they apply. All collections from prior year levies are considered delinquent tax revenue for reporting purposes in the year collected. The allowance for uncollectible taxes at September 30, 2013 was \$8,621.

The City is permitted by the State of Texas to levy taxes up to \$2.50 per \$100 of assessed valuation for general government services and for the payment of principal and interest on general long-term debt. The combined current tax rate to finance general government services, including debt service for the fiscal year ended September 30, 2013, was \$.4100 per \$100 of assessed valuation.

The Williamson Central Appraisal District (Appraisal District) is responsible for the recording and appraisal of property for all taxing units in Williamson County. The Appraisal District is required to assess property at 100% of its appraised value. Real property must be reappraised at least every four years. The City may, at its own expense, require annual reviews by the Appraisal District through various appeals and, if necessary, legal action. Under this system, if the rate, excluding tax rates for bonds and other contractual obligations adjusted for new improvements, exceeds the rate for the previous year by more than 8%, qualified voters of the City may petition for an election to determine whether to limit the tax rate to an increase of no more than 8%.

In September 2004, voters approved an initiative to freeze property taxes for homeowners over the age of 65 or disabled. This measure mirrors the State of Texas Constitutional Amendment Proposition 13, which passed overwhelmingly statewide in 2003. "Prop 13" gives local governments the option of "freezing" taxes for the elderly and disabled.

Sales Taxes - The City has adopted the provisions of Article 1066C, Vernon's Texas Civil Statutes, as amended, which grant the City the power to impose and levy a 1% Local Sales and Use Tax within the City. Proceeds of the tax are credited to the General Fund except for sales taxes generated at the airport which are credited to the Airport (Enterprise) Fund. Collections and enforcements are effected through the offices of the Comptroller of Public Accounts, State of Texas, who remits to the City monthly the proceeds of the tax, after deduction of a 2% service fee.

# NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

On October 1, 2001, the City began collecting an additional ½ cent sales tax for its component unit, GTEC, to fund transportation improvements that promote economic development. These funds are reported in the GTEC General Capital Projects Fund, a blended component unit of the City.

On April 1, 2003, the City began collecting an additional ¼ cent sales tax in accordance with Texas House Bill 445 to fund maintenance on streets that were in existence at the time the sales tax was adopted by the voters. In November 2010, the citizens readopted this ¼ cent sales tax option. The sunset provision will expire in March 2015. These funds are reported in the Streets Special Revenue Fund.

On October 1, 2005, the City began collecting an additional 1/8 cent sales tax in accordance with the Texas Development Corporation Act of 1979, Article 5190.6, Section 4A Texas Revised Civil Statues for the promotion and development of new and expanded business enterprises. This sales tax is administered through the Georgetown Economic Development Corporation (GEDCO), a legally separate entity from the City. GEDCO is reported as a discretely presented component unit of the City.

On October 1, 2005, the City began collecting an additional 1/8 cent sales tax to be used toward the reduction of ad valorem property taxes. Proceeds are credited to the City's General Fund.

Transfers eliminated in Government-wide statements: \$ 4,500,737

t Transfers: \$ 11,719,799

The net transfers between the governmental types and business types total \$11,719,799. Per the City's fiscal and budgetary policy, utility operations transfer seven percent of gross billings for utility services to the General fund as a payment of the profits of the fund or a return on investment. Other types of transfers include grant matching, fire hydrant testing, equipment purchases and capital project funding.

#### C. Advanced Refunding/Defeasance

In prior years, the City defeased bonds by placing the proceeds of the refunding bonds in an irrevocable trust to provide for all future debt service payments on the defeased bonds. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the City's financial statements. At September 30, 2013, the outstanding balance of the defeased bonds is \$29,375,000.

On June 6, 2013, the City issued \$11,005,000 in General Obligation Refunding Bonds with an average interest rate of 3.4% to advance refund \$145,000 of outstanding Series 2003 Combination Tax and Revenue Certificates of Obligation (average interest rate of 3.96%), \$2,390,000 of outstanding Series 2005 Combination Tax and Revenue Certificates of Obligation (average interest

# NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

rate of 4.75%), \$3,760,000 of outstanding Series 2005 General Obligation and Refunding Bonds (average interest rate of 4.89%), and \$4,430,000 of outstanding Series 2005A General Obligation Bonds (average interest rate of 4.52%). The net proceeds after issuance (after insurance and other issuance costs) were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the defeased series bonds. As a result, the following bonds are considered to be defeased and the liabilities for those bonds have been removed from the financial statements.

| Maturities |    | Series   |    | Series    |      | Series    | Series |           |

| Total Outstanding Revenue Debt as of September 20, 2013   | <u>\$47,455,000</u> |

# F. Revenue Bond Advanced Refunding/Defeasance

All net revenues of the electric and water services system are pledged for the payment of debt service for the revenue bonds. Net revenues, as defined by the various bond ordinances, include income and revenues derived from the operation of the system, after deduction of the amount necessary to pay all operating, maintenance, replacement and betterment charges of the system. These bond ordinances require that the net revenues, as defined, equal at least 1.25 times the average annual debt service on all revenue bonds. The City was in compliance with this requirement at September 30, 2013.

# NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

In prior years, the City defeased revenue bonds by placing the proceeds of the refunding bonds in an irrevocable trust to provide for all future debt service payments on the defeased bonds. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the City's financial statements. At September 30, 2013, the outstanding balance of the defeased bonds is \$18,565,000.

## G. Discretely Presented Component Unit - Loan Payable

Georgetown Economic Development Corporation (GEDCO) received a loan from the Water Services Fund as part of a tri-party agreement for economic development. The loan repayment schedule by GEDCO is as follows:

| Fiscal       |                 |    |          |  |  |  |  |

#### 7. RETIREMENT PLAN

#### A. Plan Description

The City provides pension benefits for all of its full-time employees through a non-traditional, joint contributory, hybrid defined benefit plan, in the state-wide Texas Municipal Retirement System (TMRS). The City of Georgetown is one of 849 municipalities having the benefit plan administered by TMRS, an agent multiple-employer public employee retirement system. Each of the 849 municipalities has an annual, individual actuarial valuation performed. The following assumptions were used for the December 31, 2012 valuations:

Actuarial Cost Method
Amortization Method
Remaining Amortization Period
Amortization period for new gains/losses
Asset Valuation Method
Investment Rate of Return
Projected Salary Increases
Includes Inflation At
Cost-of-Living Adjustments

Projected Unit Credit Level Percent of Payroll 25.1 Years – Closed Period 30 years 10-year Smoothed Market 7.0% Varies by age and service 3.0% 0.9%

# NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

The December 31, 2012 calculations were based upon the following benefits. Members can retire at ages 60 and above with 5 years or more of service or with 20 years of service regardless of age. A member is vested after 5 years. The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS and within the actuarial constraints also in the statutes.

| Membership as of 12/31/12  |     |
|----------------------------|-----|
| Number of:                 |     |
| Active members             | 476 |
| Retirees and beneficiaries | 114 |
| Inactive members           | 149 |
| Total                      | 739 |

The City also participates in the cost sharing multiple-employer defined benefit group-term life insurance plan operated by the Texas Municipal Retirement System (TMRS) known as the Supplemental Death Benefits Fund (SDBF). The city elected, by ordinance, to provide group-term life insurance coverage to both current and retired employees. The city may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1.

The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death); retired employees are insured for \$7,500; this coverage is an "other postemployment benefit," or OPEB.

TMRS issues a publically available comprehensive annual financial report that includes financial statements and required supplementary information (RSI) for TMRS. The report also provides detailed explanations of the contributions, benefits, and actuarial methods and assumptions used by the System. This report may be obtained from TMRS' website at <a href="https://www.tmrs.com">www.tmrs.com</a>.

| The city offers supplemental death to: | Plan Year 2012 | Plan Year 2013 |
|--|----------------|----------------|
| Active employees (yes or no)           | Yes            | Yes            |
| Retirees (yes or no)                   | Yes            | Yes            |

## NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

#### B. Contributions

The contribution rate for the employees is 7%, and the City matching ratio is currently 2 to 1, both as adopted by the governing body of the City. Under the state law governing TMRS, the contribution rate for the City is determined annually by the actuary, using the Projected Unit Credit actuarial cost method. This rate consists of the normal cost contribution rate and the prior service contribution rate, which is calculated to be a level percent of payroll from year to year. The normal cost contribution rate finances the portion of an active member's projected benefit allocated annually; the prior service contribution rate amortizes the unfunded (overfunded) actuarial liability (asset) over the applicable remainder of the plan's 25.1 year amortization period. Both the normal cost and prior service contribution rates include recognition of the projected impact of annually repeating benefits, such as Updated Service Credits and Annuity Increases. The City contributes to the TMRS Plan at an actuarially determined rate. Both the employees and the City make contributions monthly. Since the City needs to know its contribution rate in advance for budgetary purposes, there is a one-year delay between the actuarial valuation that serves as the basis for the rate and the calendar year when the rate goes into effect. (i.e. December 31, 2012 valuation is effective for rates beginning January 2014).

The City's total payroll in fiscal year 2013 was \$29,406,785 and the City's contributions were based on a payroll of \$29,326,690. Both the City and the covered employees made the required contributions, amounting to \$3,501,439 for the City and \$2,052,768 for the employees. The City's contribution amounted to 11.94% of the covered payroll during the fiscal year. The employees' contribution amounted to 7% of covered payroll.

#### Schedule of Actuarial Liabilities and Funding Progress

# Actuarial Valuation Date 12/31/2012

| Actuarial Value of Assets                                 | (A)         | \$ 69,132,909  |
|---|-------------|----------------|

## NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

#### **Annual Pension Cost**

| Fiscal Year<br>Funding | Annual Pension<br>Cost (APC) | APC Funded   | Percentage<br>of Annual<br>Pension Cost<br>Contributed | Net Pension<br>Obligation<br>(NPO) | Employer's<br>Contribution<br>as a % of<br>Covered Payroll |
|------------------------|------------------------------|--------------|--|------------------------------------|--|
| 09/30/11               | \$ 3,718,939                 | \$ 3,700,513 | 99.50  | \$1,333,043                        | 13.24  |
| 09/30/12               | \$ 3,293,113                 | \$ 3,222,805 | 97.86  | \$1,403,351                        | 11.85  |
| 09/30/13               | \$ 3,512,801                 | \$ 3,501,439 | 99.68  | \$1,414,713                        | 11.94  |

#### C. Net Pension Obligation Calculation

The NPO cost associated with the City's retirement benefits for the fiscal year ended September 30, 2013 and previous years, are as follows:

|  | 2013         | 2012         | 2011         |
|--|--------------|--------------|--------------|
| Annual required contribution               | \$ 3,500,874 | \$ 3,280,012 | \$ 3,701,920 |
| Interest in net pension obligation         | 98,235       | 93,313       | 98,596       |
| Adjustment to annual required contribution | (86, 307)    | (80,212)     | (81,577)     |
| Annual pension cost                        | 3,512,801    | 3,293,113    | 3,718,939    |
| Employer contributions                     | (3,501,439)  | (3,222,805)  | (3,700,513)  |
| Change in net pension obligation           | \$ 11,362    | \$ 70,308    | S 18,426     |
| Beginning net pension obligation           | 1,403,351    | 1,333,043    | 1,314,617    |
| Net pension obligation                     | \$ 1,414,713 | \$ 1,403,351 | \$ 1,333,043 |

#### 8. OTHER POST EMPLOYMENT BENEFITS (OPEB)

In addition to the contributions made to TMRS, the City provides certain other post-employment benefits to its retirees and dependents through its health insurance provider, an agent multiple-employer system. Full time employees of the City of Georgetown are eligible to receive continued health benefits and dental and vision coverage for the person and the person's dependents unless anyone is eligible for coverage through another employer. Retirees of the City are eligible to continue with coverage at the same level they had during employment. Retirees are eligible at age 60 with 5 years of services or at any age with 20 years of service. Other post-employment benefit levels for retirees are the same as coverage provided to active City of Georgetown employees in accordance with the terms and conditions of the current City of Georgetown Health Plan.

Other post employment benefits are funded on a pay-as-you-go basis. The City recognizes the cost of providing these benefits as an expense on the government wide fund statements. The estimated obligation of providing these benefits was \$460,039 in 2013 according to a report on the results of the actuarial valuation of assets and benefits values associated with OPEB requirements. This is an increase of \$98,819 over last year's obligation of \$361,220.

In fiscal year 2009, the City implemented GASB Statement No. 45. The Projected Unit Credit actuarial cost method is used to calculate the GASB ARC for the City's retiree health care plan. Using the plan benefits, the present health premiums and a set of actuarial assumptions, the anticipated future payments are projected. The projected unit credit method then provides for a systematic recognition

# NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

of the cost of these anticipated payments. The yearly ARC is computed to cover the cost of benefits being earned by covered members as well as to amortize a portion of the unfunded accrued liability.

The City is under no obligation, statutory or otherwise, to offer other post employment benefits to any retirees, or their dependants. Allocation of city funds to make these benefits available is determined on an annual basis by the City Council as part of the budget approval process. In December 2010, the City Council approved an ordinance that permanently segregates the retiree population from the active employee population in the health plan and established a retiree stipend. Council agreed to fund a retiree supplement per month per retiree to stabilize the retiree rate to an amount comparable to their current rates while a more permanent policy on retiree healthcare is developed.

A copy of the Actuarial Valuation Report for the Employee Retirement Benefit Program may be obtained by contacting Gabriel, Roeder, Smith & Company at 5605 N. MacArthur Blvd., Suite 870, Irving, Texas 75038-2631.

The City recognized the following liability in the financial statements at September 30, 2013:

#### Annual Other Post Employment Benefits Cost and Net OPEB (Obligation) Asset

The annual OPEB cost associated with the City's retiree benefits for the fiscal year ended September 30, 2013 and previous two years, is as follows:

|  | 2013          | 2012          | 2011          |
|--|---------------|---------------|---------------|
| Annual required contribution               | \$<br>122,782 | \$<br>119,206 | \$<br>114,434 |
| Interest on net OPEB obligation            | 16,255        | 12,037        | 7,991         |
| Adjustment to annual required contribution | (15,060)      | (11,152)      | (7,404)       |
| Annual OPEB cost (expense) end of year     | 123,977       | 120,091       | 115,021       |
| Contributions made (pay as you go)         | (25,158)      | (26,355)      | (25,114)      |
| Increase in net OPEB obligation            | 98,819        | 93,736        | 89,907        |
| Net OPEB obligation - beginning of year    | 361,220       | <br>267,484   | 177,577       |
| Net OPEB obligation - end of year          | \$<br>460,039 | \$<br>361,220 | \$<br>267,484 |

ADED

#### Assumptions:

| UPEB                                 |
|--------------------------------------|
| December 31, 2012                    |
| Projected unit credit cost method    |
| Level as a percent of payroll        |
| 30 years, open amortization          |
|                                      |
| 4.5%, net of expenses                |
| Initial rate of 8.5% declining to an |
| ultimate rate of 4.5% after 8 years  |
| 3.0% per annum                       |
| 3.0% per annum                       |
|                                      |

Actuarial valuations for OPEB plans involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status and the annual required contributions of the City's retiree health care plan are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

# NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

Calculations are based on the OPEB benefits provided under the terms of the substantive plan in effect at the time of each valuation and on the pattern of sharing costs between the employer and plan members to that point.

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2013 and the two preceding years are as follows:

|              |              |           |     |            | N           | et OPEB   | Percentage of    |

#### 9. DEFERRED COMPENSATION PLAN

The City offers its employees a deferred compensation plan in accordance with Internal Revenue Code Section 457. The plan, available to all City employees, permits them to defer a portion of their salary until future years. Participation in the plan is optional. The deferred compensation is not available to employees until termination, retirement, death or an unforeseeable emergency.

#### 10. COMMITMENTS AND CONTINGENCIES

## **Long-Term Agreements**

The City has the following long-term agreements, which represent significant commitments:

A. Wholesale Power Agreements - On June 28, 2012 the City of Georgetown delivered notice to the LCRA declaring LCRA to be in breach of the Wholesale Power Agreement (WPA) covering the supply of electricity and all related services to the City's Georgetown Utility System (GUS). Therefore, on August 13, 2012, per the terms of the WPA, the City of Georgetown delivered to LCRA a notice of termination to be effective on September 13, 2012. LCRA followed up with a lawsuit in Travis County seeking a temporary injunction by the court to prevent the contract termination, and also asked for summary judgment in their favor on the issue of breach. Georgetown made a plea to the jurisdiction of the court based upon sovereign immunity. The court denied the temporary injunction, summary judgment, and also ruled the case to be within its jurisdiction. Georgetown immediately appealed to the circuit court on the plea and is currently awaiting a hearing on that issue. A trial on the merits of the case is on hold pending the final resolution of the plea to the jurisdiction, and could potentially take several years to be resolved.

# NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

Prior to terminating the WPA with LCRA, GUS received almost 90% of its power needs from LCRA, but also had existing contracts with several other suppliers. Beginning on September 13, 2012 GUS began receiving energy from its other suppliers to replace the energy LCRA had planned to serve. GUS also extended its active management of its daily energy supply to cover the larger market exposures, congestion issues, and real time settlements that LCRA previously handled. GUS currently has power arrangements to cover 100% of its projected needs through May 2015. GUS is currently evaluating its energy needs through June of 2016. Post 2016, GUS has covered 80% of its needs to 2036, and is maintaining a wind contract for Southwestern University to 2028. The financial impact of these changes is projected lower purchased power costs, which are being passed on to customers through lower rates, which were changed to reflect a cost of service basis at the end of 2013 with higher fixed monthly charges and lower variable kWh rates. Additionally, GUS' new long term contracts are mostly renewable energy and therefore provide a hedge against carbon legislation costs.

- B. Brazos River Authority (BRA) Water Contracts Effective September 1, 2001, the City revised its previous water availability agreements with the BRA to further plan for future water needs and to standardize the pricing to a system-wide rate. The effective system-wide rate for BRA's fiscal year beginning September 1, 2013 is \$65.65 per acre foot and the City paid a total of \$2,018,944 for water during the fiscal year. The City has two separate agreements with the BRA as follows:
  - (1) Lake Georgetown Water This agreement, effective September 1, 2001 and expiring August 31, 2050, requires BRA to make available to the City 6,720 acre-feet of water per year at BRA's system wide rate. The City paid \$421,764 for water under this agreement for the City's fiscal year.
  - (2) Lake Stillhouse Hollow Water This agreement, effective September 1, 2001 and expiring August 31, 2040, requires BRA to make available to the City 25,448 acre-feet of water per year at BRA's system wide rate. The City paid \$1,597,180 for water under this agreement in fiscal year 2013.
- C. Brazos River Authority Williamson County Regional Raw Water Line Agreement The City is a party to an agreement dated June 30, 1986, with the Brazos River Authority (BRA), City of Round Rock, Jonah Water Special Utility District and Chisholm Trail Special Utility District. The Brazos River Authority designed, constructed, owns and operates a pipeline to transport water from Lake Stillhouse Hollow to Lake Georgetown to benefit the parties in the agreement. Total project construction cost for the raw water line was approximately \$40 million. In 2007, BRA refunded a portion of the original \$89 million in debt. It is approximately \$69 million, including principal and interest. Each participant agreed to pay for the annual cost of debt and operations of the line. The City's obligation is \$31 million, including principal and interest, to be repaid annually through 2032. The amount for fiscal year 2013 was \$1,021,945. The following schedule reflects the City's obligation:

# NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

| Year Ending September 30 | <br>Amount       |
|--------------------------|------------------|
| 2014                     | \$<br>1,011,637  |
| 2015                     | 1,006,612        |
| 2016                     | 1,011,637        |
| 2017                     | 1,011,368        |
| 2018                     | 1,011,096        |
| 2019-2032                | <br>16,256,134   |
| Total                    | \$<br>21,308,484 |

- D. Texas Capital Fund Programs The City has received awards from this program, which is operated by the State of Texas to assist in local economic development. Two types of assistance are provided to businesses relocating to the area: (1) infrastructure improvements and (2) low cost funding for facility construction. Infrastructure improvements become the asset of the City upon construction, without repayment of the grant to the State. If the City receives funding to construct a facility for a business, the City owns the facility and leases it to the business. These lease payments are then repaid to the State. The leases and pass through payments are recorded in the Agency Fund of the City. The City has three active awards for facility construction, where long term agreements are in effect:
  - (1) **Reedholm Instruments, Inc.** This facility was completed in 1997 and lease payments began in March 1997. The business is current on lease payments and has an outstanding balance of \$66,933 as of September 30, 2013.
  - (2) **Xycarb Ceramics, USA, Inc.** This facility was completed in January 1998 and lease payments began in February 1998. The business has an outstanding balance of \$109,227 as of September 30, 2013.
  - (3) **Schunk Quartz** This facility was completed in January 1998 and lease payments began in February 1998. The business has an outstanding balance of \$109,227 as of September 30, 2013.
- E. Chisholm Trail Special Utility District (CTSUD) Merger Agreement - In September 2013, the City and CTSUD approved an agreement to merge CTSUD's system with the City. The City and CTSUD started the discussion of potential merger of the two entities beginning in the fall of 2011. Both parties engaged the services of multiple consultants to investigate the potential options for regionalization, merger, system requirements and financial costs and benefits. A study completed in June 2012 concluded that significant cost savings could accrue to CTUSD utility customers through a consolidation. After review of potential governance structures, a contract was negotiated by both parties that uses the existing Georgetown Utility Systems governance and provides for the purchase of all CTSUD assets by the City in an amount necessary to defease the existing CTSUD debt. The purchase of the system was evaluated and supported by independent consultant review contained in a report published in June 2013. Under the terms of the September 2013 contract, the City began managing CTSUD on November 1, 2013 and will continue to do so until such time that the asset transaction has been approved by appropriate regulatory agencies. Once regulatory approvals are received, the City will purchase the assets, offer employment to the existing CTSUD employees, and accept existing CTSUD customers as "Out of City" customers. Funds for the purchase will come from existing CTSUD cash balance, City Water Services Fund, and debt issuance. The purchase of

# NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

the CTSUD system and transfer of the approximately 7,300 CTSUD customers is expected to occur late spring of 2014. Once the consolidation is completed, CTSUD will be dissolved.

- F. Chisholm Trail Special Utility District - In February 1999, the City and CTSUD entered into an agreement which provided CTSUD water treatment capacity in exchange for allowing Georgetown the right to provide water service in the Highway 195 and expanded Sun City areas. The City transferred to CTSUD, a phased financial position in the Lake Water Treatment Plant (LWTP), valued at \$1,681,070, equaling 4.36 mgd of the off-peak plant capacity. In 2009, the City and CTSUD entered into a subsequent agreement to: 1) convert the existing 4.36 mgd of LWTP off-peak capacity to 4.09 mgd of firm capacity, 2) jointly construct and operate expanded facilities at the Lake Water Treatment Plant with such 11 mgd expansion scheduled to start in March 2011, 3) construct a new treatment plant at a new site south of Lake Georgetown, and 4) an option to purchase a portion of CTSUD water service territory for the sum of \$1,265,787. The LWTP expansion was completed in 2013. CTSUD has paid their share of the construction costs via quarterly settlements. The project has not been closed out. Final payment is pending final punch list completion. CTSUD owns 9.59 mgd of capacity in the LWTP representing 33.65% of the total capacity of the plant as of September 30, 2013. CTSUD pays prorata operating costs for all water produced at the LWTP. Once the merger with the City is completed, this treatment capacity will revert back to the City.
- Highlands at Mayfield Ltd In July 2005, the City and Highlands at Mayfield, Ltd (Highlands) G. entered into an agreement, subsequently amended in October 2006, to provide for partial reimbursement by Highlands for the cost of constructing a 1.25 mg elevated storage tank to provide water service to the development. Upon notification by Highlands that it would not be able to make the reimbursement totaling \$465,319 required by the contract, the City and Highlands amended the contract in September 2010 to defer the payment until August 2012 in exchange for interest payments until the reimbursement payment is made. The Highlands has made their quarterly interest payments as required and requested that one additional interest payment plus the capacity payment of \$465,319 be made on December 31, 2012. Due to high costs to the Developer associated with design of and easement acquisition for the Park Alignment Waterline and the additional engineering, construction and easement acquisition costs related to the required alternate water line, the contract was amended again in May 2013. The amended contract states that the Capacity Payment will bear interest at the rate of 3.6% per annum from January 1, 2013 until paid. The Capacity Payment, plus accrued interest, will be due and payable on the date of closing of the sale of the District's first bond issue and will be paid by the District out of the proceeds of such bonds.
- H. Del Webb Corporation (Sun City Texas) The Del Webb Corporation (Del Webb) began development in April 1995 of a proposed 9,500 unit; 5,300 acre active retirement community to be called Sun City Texas. The City, through a Development Agreement, and in exchange for payment of Service Improvement Fees (SIP fee discussed below) provides fire protection, wastewater, water and electric service to Sun City. The project is annexed into the City limits as phases of the project are platted. Home sales began in June 1995 and were expected to average 425 homes per year for 20 years. As of September 30, 2013, 6,710 units have been completed.

In May 2006, the City approved the *Eighth Amendment to the Development Agreement* with Del Webb. The Eighth Amendment set the build out at 7,500 age restricted units at Sun City. Additionally, it escalated the payment of "stranded costs" and addressed the water and wastewater capacity needed to serve the 2,500 age restricted units above the 5,000 units originally defined in the Seventh Amendment. The SIP fee for units 5,001 through 7,500 was

# NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

also set in this agreement at \$3,292 per unit. As of September 30, 2013 there were 1,710 units under this agreement.

- I. Georgetown Village Public Improvement District In 1999, the City of Georgetown created the Georgetown Village Public Improvement District No. 1, pursuant to Chapter 372 of the Texas Local Government Code. The City is required to construct and provide operation, repair and maintenance of parks, recreational facilities, alleyways, lighting, landscaping and related improvements to the district that are above the standards that are met elsewhere in the City. Property owners are assessed an annual maintenance assessment of \$0.20 per \$100 valuation. Assessment revenue of \$224,910 was recognized for 2013. As of September 30, 2013 all costs associated with the Georgetown Village Public Improvement District have been reimbursed.
- J. Cimarron Hills Public Improvement District In May 2000, the City and Paloma Cimarron Hills, L.P. entered into a development agreement for a 606 home, 813 acre subdivision within the City's Extraterritorial Jurisdiction (ETJ). As part of this agreement, the City created the Cimarron Hills PID to reimburse the developer for costs of certain infrastructure improvements. Each lot within the development is assessed an annual fee based on its type of usage. The City also collects a per unit transportation fee which will be used to fund necessary roadway improvements and bridge crossings in the area. As of September 30, 2013, 234 lots had been sold and 117 homes had been completed for this development. PID assessment collection began in 2002. In 2013, PID assessments were \$2,649,103. The developer was reimbursed \$2,617,657 from current year collections and available fund balance. The assessments and related disbursements are recorded in the Agency Funds.
- K. Wolf Ranch Towne Center In July 2003, the City approved a development agreement with Simon Properties for the 750,000 sq ft Wolf Ranch Towne Center. The project includes Target and 70 other retailers and restaurants. As part of the agreement, the City provided utility improvements to the site, as well as, funded \$10.5 million of highway improvements for the project. The \$10.5 million was funded with debt to be repaid by Georgetown Transportation Enhancement Corporation (GTEC). Improvements to SH 29, as well as, provide the frontage road for IH-35 were constructed as part of this project. As of September 30, 2013, \$10,555,000 of GTEC debt had been issued for this project.

The City's development agreement with Simon includes a sales tax rebate allowable under Chapter 380 of the Texas Local Government Code. Fifty-three percent of the 1% general operating sales tax revenue generated at the development is rebated to Simon as an economic development incentive. This arrangement continues for 20 years or up to \$15 million, which funds the public on-site improvements paid by Simon.

In June 2004, the City created the Wolf Ranch Public Improvement District (PID) #1 for all Simon owned property within the Wolf Ranch development. In the event that revenues from the project are insufficient to fund any outstanding debt related to the project, an assessment would be levied against the property in the PID to protect the City from potential revenue shortfalls. Should revenues meet or exceed expectations, no assessment is made. The revenues did not meet expectations, therefore the assessment increased.

As a practical matter, the sales tax rebate due under the 380 agreement is netted against the PID assessment payable. The net balance in the Public Road Improvement District assessment receivable is \$759,944, including interest, as of September 30, 2013.

L. Citigroup, NA, Inc. - In November 2006, the City entered into a 10 year tax abatement agreement with Citigroup, NA, Inc., who constructed a \$475 million data center within the City.

# NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

The abatement began in tax year 2009 (fiscal year 2008/09). The Georgetown Economic Development Corporation (GEDCO) also entered into an agreement with Citicorp, NA to fund \$1.3 million of offsite wastewater improvements as an incentive for the creation of 50 jobs. The amount of the abatement for tax year 2013 (fiscal year 2012/13) is \$105.5 million of appraised market value.

- M. Advanced Metering Infrastructure (AMI) In December 2010, the City Council approved the award of a contract for the acquisition and deployment of an AMI system to Elster Integrated Solutions for an amount not to exceed \$8.6 million. The implementation will take place over a three year time span. The contract was amended in December 2013 to extend the existing contract through March 31, 2014 at the same price, terms and conditions. As of September 30, 2013, there is \$7,860,030 in expenses associated with this project. The project will be complete when the final acceptance testing is complete and signed off on per schedule B of the contract. The project will be funded with cash reserves and/or revenue bonds issued by the Electric Utility.
- N. **Williams Drive Tax Increment Reinvestment Zone (TiRZ)** was established in November 2006 to fund improvements needed for redevelopment of the Williams Drive gateway area. A master plan for the area was developed in 2006, with implementation planned for future years. As of September 30, 2013, \$38,184 has been collected, with no proceeds invested in projects.
- O. **Downtown Tax Increment Reinvestment Zone** was established in 2004 to fund improvements in the downtown overlay district to assist in funding the downtown master plan. As of September 30, 2013, \$627,842 of taxes and interest earnings has been collected, of which \$600,622 had been invested in designated projects within the zone.
- P. Rivery Park Tax Increment Reinvestment Zone Rivery TIRZ) was established in 2008 to fund a convention center/hotel complex, as well as, an expansion to Rivery Park. The City and Williamson County agreed to reimburse up to \$25 million for the project. The City will contribute 100% and Williamson County will contribute 80% of their respective property tax valuation increase generated at the 32-acre site to fund the project. The City will remit half of the 1% City sales tax generated at the site to Williamson County as reimbursement. As of September 30, 2013, \$46,641 has been collected with no proceeds invested in projects.
- Q. Williams Drive Expansion Project In April 2008, the City entered into a Memorandum of Understanding (MOU) with Williamson County for the expansion of FM 2338 (Williams Drive). The County agreed to up front the costs of the project in order to accelerate its construction to address safety issues near Sun City. Under the MOU, the City agreed to repay the County at a later date for the City's share of these costs. The City will be responsible for 65% of the total project costs, estimated at \$22 million, for the portion of the project inside the City.

In January 2009, the City Council approved an inter-local agreement with Williamson County to address repayment for the Williams Drive expansion project as previously approved as a Memorandum of Understanding in April 2008. In December 2008, the City was notified that the City was awarded \$8.8 million from the Capital Area Metropolitan Planning Organization (CAMPO) for funding their portion of the project. These funds will be forwarded directly to the County for funding the project. The City has reimbursed the County \$7,564,466 of CAMPO funding. The remaining balance of \$4.7 million was paid by the City as of September 2012. Approximately \$1.2 million of outstanding, not grant funded costs related to the relocation of utilities are currently being reviewed by the City with final payment to be negotiated in 2014.

# NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

R. GCV Enterprises LLC, dba Grape Creek Winery - In October 2011, City Council approved an economic development agreement with GCV Enterprises LLC, dba Grape Creek Winery to establish and operate a winery on the downtown square. Georgetown Economic Development Corporation (GEDCO) entered into an agreement with the developer to reimburse up to \$280,000 for improvements to the property and patio related to the project. Downtown Tax increment Reinvestment Zone entered into a reinvestment zone agreement with the developers in September 2012 to fund \$60,000 for construction improvements. In addition, GEDCO has entered into a lease agreement with Grape Creek for an initial term commencing on March 1, 2012 and ending five (5) years after the Open Date. Grape Creek shall have three (3) consecutive options to renew the term of the lease, each for an additional five (5) year term.

#### 11. FINANCIAL HEDGING

In an effort to mitigate the financial and market risk associated with the purchase of natural gas, energy, and congestion price volatility, the City has established a Risk Management Policy. This policy was authorized by the City Council and is led by the Georgetown Utility Services Board. Under this policy, the City enters into forward contracts for natural gas, swaps, and congestion rights for the purpose of reducing exposure to natural gas, energy, and congestion price risk. Use of these types of instruments for the purpose of reducing exposure to price risk is performed as a hedging activity.

At September 30, 2013, the City had multiple outstanding contracts, with wholesale customers to provide power supply and/or qualified scheduling entity services. For the power supply customers, the City charges an energy charge which is based on the quantity of power supplied multiplied by a fixed price, or multiplied by a fixed heat rate and a fuel index price. In order to hedge the City's risk, the City has entered into corresponding power supply agreements with counterparties to hedge against energy price or heat rate fluctuation in the market.

#### **Congestion Revenue Rights**

Pre-assigned Congestion Revenue Rights (PCRRs) and Congestion Revenue Rights (CRRs) function as financial hedges against the cost of resolving congestion in the Electric Reliability Council of Texas (ERCOT) market. These instruments allow the City to hedge expected future congestion that may arise during a certain period. CRRs are purchased at auction, annually and monthly at market value. Municipally owned utilities are granted the right to purchase PCRRs annually at 10-20% of the cost of CRRs. These instruments exhibit all three of the characteristics of settlement, leverage, and net settlement to classify them as derivative instruments.

#### Risks

Credit Risk. The City's over-the-counter agreements for natural gas and energy expose the City to credit risk. In the event of default, the City's operations will not be materially affected. However, the City does not expect the counterparties to fail to meet their obligations. The City maintains contracts with contractual provisions under the EEI (Edison Electric Institute) and EPC (Energy Procurement Contract) agreements.

The congestion revenue rights expose the City to custodial credit risk in the event of default or nonperformance by ERCOT. In the event of default or nonperformance, the City's operations will not be materially affected. However, the City does not expect ERCOT to fail in meeting their obligations as they are a regulatory entity of the State of Texas.

# NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

Termination Risk. Termination risk is the risk that a derivative will terminate prior to its scheduled maturity date due to a contractual event. Contractual events include illegality, tax and credit events upon merger and other events. The City's exposure to termination risk for over-the counter agreements is minimal due to the high credit rating of the counterparties, and the contractual provisions under the EEI and EPC agreements applied to these contracts. Termination risk is associated with all of the City's derivatives up to their fair value of the instrument.

Netting Arrangements. The City enters into netting arrangements whenever it has entered into more than one derivative transaction with a counterparty. Under the terms of these arrangements, should one party become insolvent or otherwise default on its obligations, close-out netting provisions permit the non-defaulting party to accelerate and terminate all outstanding transactions and net the transaction's fair values so that a single sum will be owed by or owed to the non-defaulting party.

#### 12. ACCOUNTING CHANGES AND ACCOUNTING STANDARDS

In fiscal year 2013, the City implemented Governmental Accounting Standards (GASB) Statement 63, "Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position", and Statement 65, "Items Previously Reported as Assets and Liabilities". Statement 63 will improve financial reporting by standardizing the presentation of deferred outflows of resources and deferred inflows of resources and their effect on a government's net position. The objective of Statement 65 is to either properly classify certain items that were previously reported as assets and liabilities as deferred outflows of resources or deferred inflows of resources or to recognize certain items that were previously reported as assets and liabilities as outflows of resources (expenses or expenditures) or inflows of resources (revenues).

The implementation of Statement 65 resulted in the reclassification of the beginning net position of the governmental activities in the government-wide financial statements and proprietary funds in the statement of revenues, expenses, and changes in net position. The deferred charges for issuance costs were reclassed as expense of prior periods and resulted in the adjustment below:

#### Governmental Activities

| Net position at September 30, 2012                               | \$<br>198,802,874 |
|--|-------------------|
| Change in reporting for deferred charges for debt issuance costs | (1,710,171)       |
| Net position at September 30, 2012, restated                     | \$<br>197,092,703 |

#### **Business Type Activities**

|   | Electric<br>Fund | Water<br>Services<br>Fund | Nonmajor<br>Enterprise<br>Funds | Total          |
|---|------------------|---------------------------|---------------------------------|----------------|

# NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

#### 13. SUBSEQUENT EVENTS

- A. On December 17, 2013, EDF Renewable Energy (EDF-RE) and Cielo Wind Power LP (Cielo) finalized a Purchased Power Agreement (PPA) with GUS to supply 144MW of power from the Spinning Spur III Wind Project. This project is expected to begin commercial operations slated for late 2015. GUS is a partner with Garland Power and Light in the purchase of the rights to the energy provided from the project, with Garland receiving 50MW of the total 194MW capacity. The PPA also assigns all Renewable Energy Credits generated by the project to GUS and Garland on a ratio basis. The term of the PPA extends for 20 years past the commercial operation date.
- B. Development agreements for a 220-room Sheraton hotel and conference center at the 32-acre Rivery site were approved by City Council on December 10, 2013 and January 14, 2014. The Summit at Rivery Park (Rivery) project will include a 16,000 square-foot conference center that can accommodate up to 4,500 people. Plans for the project include future phases with retail stores, restaurant sites, single-family homes, and multifamily residences for a total project investment of \$150 million, including \$65 million for the hotel, conference center, and parking garage. Private investors will fund most of the project cost.

The site is located within the Rivery TIRZ to capture the increased property valuation by the project. A total of \$16.8 million in future City and County property taxes generated at the site will be used to reimburse the City and the developer for the cost of the hotel and conference center, parking garage, and public improvements. This includes \$12.5 million of investments by the City and 4A Georgetown Economic Development Corporation, \$750,000 by the 4B Georgetown Transportation Enhancement Corporation, and \$3.5 million by the developer.

#### <u>Grants</u>

Amounts received or receivable from grantor agencies, principally the federal government, are subject to audit and adjustment by the agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

#### Litigation

The City is involved in various legal actions in which claims of varying amounts are being asserted against the City. The City follows the practice of providing for these claims only when they become probable and reasonably determinable in amount. In the opinion of City management, these actions will not result in a significant change in the City's financial position.

#### Construction Contracts

Estimated costs to complete significant construction projects in progress at year-end totaled approximately \$22,487,000 for Governmental Funds and approximately \$859,000 for Enterprise Funds.

# REQUIRED SUPPLEMENTARY INFORMATION - MODIFIED APPROACH FOR STREETS INFRASTRUCTURE CAPITAL ASSETS

GASB Statement 34 allows the City to use the Modified Approach with respect to infrastructure assets instead of depreciating these assets. The City Council adopted an average PCI level of 85 which is considered "good" condition for a street. The City's system for reporting assets is fully discussed in Note N on page 70 of the notes. The following is additional information for the City's streets infrastructure for fiscal year 2013. This information is updated every three years and comparative data is included.

| Condition | Rating Summ | ary      |          |        |          |
|-----------|-------------|----------|----------|--------|----------|

# Combining and Individual Fund Financial Statements and Schedules Nonmajor Governmental Funds

#### Special Revenue Funds

Special Revenue Funds are used to account for specific revenues that are legally restricted for expenditures for particular purposes.

<u>Court Fees</u> – to account for the receipt and expenditure of court fees that are legally restricted for court security and technology.

Conservation – to account for the Energy Conservation Fee that is charged to Electric customers. This fee is used for the enactment of House Bill 3693 to address the issue of peak demand by initiating energy efficiency initiatives and conservation strategies. The funds collected will be used for a weatherization program and solar water heating program.

<u>Development</u> – to account for the receipt of private donations, grants, and money raised through special events to provide assistance to building/property owners for maintaining the appearance of the downtown historic district. Funds are distributed through an application/approval process with either a low-interest loan or grant; and to account for the receipt and expenditure of revenues from building proceeds to further develop downtown structures.

<u>Fire Billing and Donations</u> – to account for the receipt and expenditures of funds received by the City for various fire services, including calls for service, donations, abandoned vehicle revenue and inspections.

<u>Library Restricted</u> – to account for the receipt and expenditure of restricted donations such as memorials and gifts for a designated library purchase or program. Also accounts for the receipt of the Texas State Library grant for librarian salaries and books.

<u>Parks</u> – to account for revenues earned by the City from activities on City park land, which are restricted for improvements to park land and for parkland dedication fees paid by developers, which are restricted by zones for new parks. Also accounts for the partial administration of a federal drug prevention grant in coordination with Georgetown Project.

<u>PEG Fee</u> – to account for the receipt and expenditure of PEG fees that are legally restricted for capital expenditures related to the City's cable access channel.

<u>Police</u> – to account for a Texas Department of Transportation grant for a Selective Traffic Enforcement Project (STEP) related to overtime costs and the receipt and expenditure of seized donated funds.

<u>Streets Sales Tax</u> – to account for the receipt and expenditure of revenues collected from the ¼ cent sales tax approved by the citizens in November 2001 under Texas House Bill 445. The funds are required to be spent on maintenance of streets that were in existence at the time of adoption of the tax.

<u>Tourism</u> – to account for the receipt and expenditure of funds received by the City from the assessment of hotel and motel occupancy tax. Usage of funds is restricted to promotion of tourism and arts within the City.

<u>Transportation</u> – to account for the receipt and expenditures of funds received by the City for the Williams Drive expansion project.

<u>Village Public Improvement District</u> – to account for the receipt and expenditure of the revenues collected from property assessments paid by Georgetown Village Public Improvement District residents and the developer to fund maintenance on upgraded parks facilities within the subdivision.

<u>Downtown</u>, <u>Gateway and Rivery Park Tax Increment Reinvestment Zones (TIRZ)</u> – to account for public improvements within an area that will generate private-sector development. The tax base is frozen at a predevelopment level and the increases in taxes derived from increases in assessed valuations are to retire bonds originally issued for the development or to leverage future growth in the assigned areas.

# Combining Financial Statements Nonmajor Proprietary Funds

Enterprise Funds - The City's utilities are accounted for and operated in a manner similar to private business enterprises. Each utility, accounted for as an independent entity, is an enterprise fund. Enterprise fund accounting is used where the intent of the City Council is to finance or recover the costs of providing goods or services to the general public on a continuing basis primarily through user charges or when the City Council has decided that periodic determination of net income is appropriate for accountability purposes.

<u>Airport Fund</u> - used to account for revenues and expenses related to the operation and maintenance of the City's airport. All activities necessary to provide such services are accounted for in this fund including, but not limited to, administration, operations, maintenance, financing and related debt service, billing, collection and capital improvements.

<u>Stormwater Drainage Fund</u> - used to account for revenues and expenses related to the operations, capital projects, and debt service of the stormwater drainage facilities.

**Internal Service Fund** - This fund is used to account for services performed by one government organization or department for others.

<u>Fleet Management Fund</u> - The City uses this fund to purchase and account for all major equipment and vehicles. Each item is assigned an annual lease value which the leasing department pays to the Internal Service Fund. The annual lease value is determined by the projected replacement cost divided by the years of useful life of the item. The payments made by the departments enable the Internal Service Fund to replace equipment and vehicles on a pre-planned schedule to minimize maintenance costs and reduce safety risks due to worn out equipment and vehicles. The fund also provides maintenance for all vehicles through the Vehicle Service Center.

<u>Joint Services Fund</u> - The Joint Services Fund is composed of departments which provide services to more than one city fund. Charges for services provided are determined by altocating each specific department's cost to the using fund.

<u>Facilities Maintenance Fund</u> - The City uses this fund to account for janitorial service, light maintenance, painting, landscape maintenance and roofing and air conditioning repairs for all City buildings. Each building is assigned an annual maintenance cost, which is paid to the Internal Service Fund by the occupying departments, based on square footage occupied. The payments made by the departments enable the Internal Service Fund to provide major and minor facility repairs on a preplanned schedule to minimize maintenance costs and provide preventative care to reduce long-term maintenance and replacement costs.

<u>Information Services Fund</u> - The City uses this fund to account for purchases and maintenance of the City's computer systems. Each department pays an annual predetermined lease payment, based upon the equipment the department has. These payments enable the fund to replace older equipment and upgrade the City's computer resources and provide assistance in maintenance of equipment. This fund also provides for the management of the City's computer systems through personnel in the Information Services department.

## Agency Funds Statement of Changes in Assets and Liabilities

The Agency Fund is used to account for assets and liabilities held by the City acting as an agent for others.

<u>Public Improvement Districts</u> (PID) – to account for the receipt of the revenue collected from property assessments paid by Cimarron Hills residents to fund the infrastructure of the new development. The City acts as an agent for the collection of the assessments and then sends the revenue to an Escrow Agent for Cimarron Hills.

<u>Texas Capital Fund Repayments</u> – to account for the lease payments received from businesses who have benefited from the Texas Capital Fund economic development grants and the corresponding payments to the state to repay the grants. Reedholm Instruments, Inc., Xycarb Ceramics, and USA Schunk Quartz, Inc., are the businesses currently in the repayment/lease mode for these grants.

## Statistical Section

This part of the City of Georgetown's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

## Contents:

| Financial Trend   | 6  |
|---|----|
| These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.   |    |
| Revenue Capacity  | '6 |
| These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.   |    |
| Debt Capacity   | 6  |
| These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future. |    |
| Demographic and Economic Information  | Ю  |
| These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.                                      |    |
| Operating Information   | 12 |

These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report related to the services the government provides and the activities it performs

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The City implemented Statement 34 in 2003; schedules presenting government-wide information include information beginning in that year.

NOTE: All taxable property within the City is subject to the assessment levy and collection by the City of a continuing, direct annual ad valorem tax sufficient to provide for the payment of principal and interest on the Bonds within the limits prescribed by law. Article XI, Section 5, of the Texas Constitution is applicable to the City, and limits the maximum ad valorem tax rate to \$2.50 per \$100 assessed valuation (for all City purposes). The Charter of the City adopts the provisions of the constitution without further limitation. Under rules promulgated by the Office of the Attorney General of Texas, such office will not approve tax bonds of the City unless the City can demonstrate its ability to pay debt service requirements on all outstanding City tax bonds, including the issue to be approved, from a tax levy of \$1.25 per \$100 of valuation, based on 90% collection of tax.

(1) The legal margin computation includes the general obligation debt that will be repaid by self-supporting sources such as the Airport, Stormwater Drainage and Georgetown Transportation Enhancement Corporation (GTEC) funds.

# INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and City Council The City of Georgetown, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Georgetown, TX (the "City") as of and for the year ended September 30, 2013, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated February 28, 2014.

#### Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the fimited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Honorable Mayor and City Council City of Georgetown, Texas

#### Report on Compliance for Each Major Federal Program

We have audited the City of Georgetown, Texas (the "City") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended September 30, 2013. The City's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

#### Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

#### Opinion on Each Major Federal Program

In our opinion, the City's complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2013.

#### Report on Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the result of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

## NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2013

<u>General</u> - The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal financial assistance programs of the City of Georgetown, Texas. The City's reporting entity is defined in Note 1 to the City's financial statements. Federal assistance received directly from federal agencies as well as federal financial assistance passed through other government agencies are included in the schedule.

<u>Basis of Accounting</u> - The accompanying Schedule of federal financial assistance is prepared using the modified accrual basis of accounting, which is described in Note 1 to the City's financial statements.

Relationship to Federal Financial Reports - Amounts reported in the accompanying schedule agree with the amounts reported in the related federal financial reports in all material respects.
